TABLE OF CONTENTS

06 **REGULATORS**
Breathe easy. We've got you covered with an assortment of regulators, octopuses, breathable inflators, hookah and more.

17 **BUOYANCY COMPENSATORS**
From jackets and back inflation, to backplates and wings, you'll be buoyed for success!

34 **GAUGES**
We offer a wide assortment of pressure, depth, and compass instruments.

44 **HOSES**
Braided, technical and rubber hoses are available in multiple lengths.

56 **CYLINDERS**
See the wide assortment of sizes, colors, and finishes.

61 **VALVES**
The most trusted, best-selling valves in the industry!

70 **CYLINDER ACCESSORIES**
Don't let that cylinder go out the door naked. Accessorize it!

78 **BAGS**
Peruse our collection of built-for-purpose dive bags.

87 **MASKS**
You can clearly see that we offer one of the widest assortments of masks in the industry.

96 **SEADIVE**
Coated lens masks with names like RayBlocker®-HD, TrueColor™ & Hydrophobic™

102 **OCEANWAYS**
Masks that are enhancing the dive experiences around the globe.

109 **SNORKELS**
Dry tops, semi-dry tops and traditional open tops mean that there is a snorkel for every age and skill level.

114 **FINS**
You'll get a kick out of our fin assortment. Long, short, rubber or plastic, we have a fin to fit your needs.

120 **NEOPRENE**
- Boots 120
- Socks 123
- Gloves 125
- Wetsuits 128
- Rash Guards 129
- Shorts 130
- Pockets 130
- Hoods 131

132 **HANGERS**
Whether they're protecting a wetsuit or drying a pair of booties, hangers are often overlooked, but oh so important!

134 **KNIVES**
Traditional blades or scissor knives, our assortment is a cut above the competition.

139 **LIGHTS**
Lights, camera, action! Three elements needed for a great scuba dive!

144 **ACCESSORIES**
- UFO 142
- Retractors 146
- Coils 148
- Rattlers 149
- Freediving Lanyard 149
- Mouthpieces 150
- Diver's Multi Tools 151
- Slates 154
- Spools & Reels 155
- Tech Pockets 158

159 **LIFT BAGS / SMB'S**
With names like Smart Marker and Quick Launch, our expanding assortment of lift bags and SMBs are setting the standard for safety and functionality.

163 **WEIGHTS**
Here you'll find coated, uncoated, shot mesh, ankle, quick attach, belts, buckles, pockets and more.

171 **HARDWARE**
Double-enders, shackles, bolt snaps, split rings and more, we have more hardware than Inspector Gadget.

175 **TOOLS**
We offer a fine assortment of scuba tools for divers as well as repair technicians.

186 **SIZE CHARTS** [DIGITAL ONLY]

XS SCUBA

NEW PRODUCTS

VALOR TECH HARNESS

PG.22

The Highland Valor is a backplate-integrated harness. It is the chassis that supports multiple plates, wings and technical pockets. Use it to build out a technical rig for extended range diving or customize it for a tropical getaway. Its greatest asset is its versatility.

PG.26

SLIMTRIM WEIGHT HARNESS

The SlimTrim weight harness attributes its slim profile to dual-channel weight pockets that allow up to 4-pieces of lead, per pocket, to be right up against your body. Loading the pockets is a breeze with the Catch n' Release™ mechanism.

EVERYTHING FOR THE PERFECT DIVE

PG.88

ETHOS
FREEDIVING MASK

Ethos is an innovative and revolutionary frameless mask designed for freediving and spearfishing. The Ethos features Ocular Orbit technology resulting in one of the lowest volume masks available with an incredible internal volume of approximately 79 cm^3.

FLASH FIN

Compact yet powerful, the Flash Fin will propel you to your next underwater adventure with the ease of a traditional scuba fin, making it the ideal travel-friendly fin for scuba divers and snorkelers.

PG.114

SK BOOT

The SK Boot is an in-water work boot. The proprietary CanyonGrip™ sole protects your feet when getting to the water's edge presents a challenge. The 5 mm quality neoprene provides meaningful protection and warmth.

PG.120

LOPRO MARKER BUOY

The LoPro Marker Buoy integrates the over-pressure valve into the inflation stem allowing it to roll up into the most compact 6 ft. surface marker buoy available!

PG.161

HIGHLAND ENGINEERED QUALITY Vortex Regulator

The Vortex is a technical diving regulator that lends itself well to cold, deep, and extended range diving. It configures nicely with sidemount and twin cylinder systems. The outstanding performance is a requirement for the Vortex to be branded Highland.

- Suitable for cold water use in water temperatures below 50°F / 10°C
- Compatible with EAN40 right out of the box
- Available with DIN or yoke connection
- Comes with a custom designed Miflex braided hose. Miflex hoses are lightweight and extremely flexible

1st Stage:

- A 5th port located on the end of a swivel turret allows for optimum hose configuration for sidemount or twin cylinder setups
- An external, secondary diaphragm keeps water out of the main spring chamber preventing ice buildup
- Heat exchanger ribs, integrated into the main body, provide added thermal protection, minimizing the chance of freeze-up
- Two high-pressure ports allow for use of a computer transmitter along with an analog back-up gauge
- A black chrome finish, with a high quality PVD coating on the heat exchanger, means that the Vortex regulator is durable and prepared for all environments

2nd Stage:

- Pneumatically balanced for superior breathing performance
- An adjustment control knob allows the diver to dial in the inhalation resistance
- An integrated venturi lever allows the diver to shut down the venturi assist when the regulator is out of the mouth
- A Comfy-bite mouthpiece, with palate bridge, eliminates jaw fatigue
- A heat exchanger warms the second stage valve providing effective freeze resistance
- The purge button has a limited throw, minimizing the chance of a freeze-up
- This second stage is fully reversible left/right using the conversion kit (see below)
- Technicians will enjoy the convenient micro-adjuster located within the adjustment knob

PART #	DESCRIPTION	RETAIL
RGH600	Highland Vortex Regulator - Yoke	660.00
RGH610	Highland Vortex Regulator - DIN	660.00
RPH600	Complete DIN Adapter - Vortex	105.00

HIGHLAND ENGINEERED QUALITY Vortex Octopus

- Pneumatically balanced for superior breathing performance. Your buddy will appreciate that your Vortex Octopus will equal the performance of your Vortex primary second stage
- An adjustment control knob allows the diver to dial in the inhalation resistance
- An integrated venturi lever allows the diver to shut down the venturi assist when the regulator is out of the mouth
- A heat exchanger warms the internal valve providing effective freeze resistance
- The purge button has a limited throw, minimizing the chance of a freeze-up
- This second stage is fully reversible left/right using the conversion kit (see below)
- The custom 40 in (102 cm) Miflex hose is lightweight and pliable

PART #	DESCRIPTION	RETAIL
RGH650	Octopus - Vortex	245.00
RPH650	Left / Right Conversion Kit	10.00

Vortex Regulator Streamlined Set

An alternate way for a sport diver to configure their regulator instead of using a yellow octopus at the end of a long, yellow hose. The streamlined set prevents hoses from dangling and optimizes comfort.

In the streamlined configuration, the hose on the primary regulator routes under the diver's arm and attaches to the second stage with a 90° swivel adapter, optimizing comfort because the hose is no longer tugging on your mouth. The backup regulator, inserted into a regulator necklace, is tucked safely under the chin, allowing immediate access. In an emergency, the primary is donated while the backup is instantly available. The SPG is clipped to the waist D-ring using the snap.

- Vortex DIN First Stage (p/n RGH610-01)
- Two Vortex Second Stages (p/n RGH600-02)
- 40 in (102 cm) Miflex LP Hose - Black (p/n MLP40-BK)
- 22 in (56 cm) Miflex LP Hose – Black (p/n MLP22-BK)
- Vortex Spin-On Yoke – Black (p/n AC370BK)
- Highland Bungee Regulator Necklace (p/n HL615)
- 90° Right Angle Adapter (p/n AC910)
- Highland 2 in (5 cm) Brass and Glass SPG w/ PVD finish - Dual Scale (p/n HL301-DS-PVD)
- 24 in (61 cm) Miflex HP Carbon Hose (p/n MHP24-CN)
- Highland 4.0" "U-Top" Swivel Bolt Snap (p/n HL913)
- 22 in (56 cm) Miflex QD Hose (p/n MQD22-BK)

PART #	DESCRIPTION	RETAIL
RGH620	Highland Vortex Regulator Streamlined Set	995.00

Inspire Regulator

The Inspire is a performance regulator that provides superior breathing. It breathes quietly, smoothly and breathes dry in all positions. It proves that you do not have to pay top dollar to get performance and features. Factory cleaned and ready for pre-blended Nitrox up to 40% oxygen. The Inspire is for use in water >50º F (10º C).

- Compatible with EAN40 right out of the box
- Available with DIN or yoke connection
- Comes with a custom designed Miflex braided hose. Miflex hoses are lightweight and extremely flexible

First Stage:

- Balanced diaphragm first stage
- Two high-pressure ports allow for use of a computer transmitter along with an analog back-up gauge
- 4 MP ports built into a rotating turret for optimum hose routing

Second Stage:

- Pneumatically balanced for superior breathing performance
- An adjustment control knob allows the diver to dial in the inhalation resistance
- An integrated venturi lever allows the diver to shut down the venturi assist when the regulator is out of the mouth
- A Comfy-bite mouthpiece, with palate bridge, eliminates jaw fatigue
- Technicians will enjoy the convenient micro-adjuster located within the adjustment knob

SCUBALAB BEST BUY 2022

PART #	DESCRIPTION	RETAIL
RG500	Inspire Regulator - Yoke	530.00
RG510	Inspire Regulator - DIN	530.00
RP510	DIN Connector - Complete	70.00
RK13	Inspire First Stage Service Kit	30.00
RK12	Inspire Second Stage Service Kit	17.00

Inspire Octopus

- High visibility front cover and hose
- Offers the same high performance as the Inspire primary second stage
- An Inhalation Control Knob to adjust breathing effort
- A venturi lever allows the diver to turn off the venturi boost when the regulator is out of the mouth
- The 40 in (102 cm) custom Miflex hose is lightweight and pliable

PART #	DESCRIPTION	RETAIL
RG550	Inspire Octopus	200.00
RK12	Brawn/Inspire Second Stage Service Kit	17.00

Xplore Regulator

The Xplore regulator combines performance, reliability and economy in one package. Designed to take the high-use demands of a rental department without the need for constant adjusting. Factory cleaned and ready for pre-blended Nitrox up to 40% oxygen.

First Stage:

- Lightweight and compact
- In-line piston design
- Rental tough
- 4 MP ports
- 1 HP port

Second Stage:

- Pneumatically balanced downstream design
- Adjustable dive/predive venturi lever
- Flexible, easy purge cover for quick clearing
- Chambered exhaust tee directs bubbles away from your face

Xplore Octopus

- Hi-viz yellow front cover and hose allows for easy identification in an emergency
- Pneumatically-balanced to provide superior breathing performance
- An integrated venturi lever allows the diver to turn off the venturi when the regulator is out of the mouth. This prevents unwanted free-flow
- The 40 in (102 cm) yellow hose provides extra length for your buddy

RK11	Service Kit - Xplore DIN Only	19.00
RK12	Service Kit - Xplore 2nd Stage	17.00

MultiMax Breathable Inflator

The MultiMax adds convenience, efficiency and safety to your dive. By combining an alternate air source with an inflator, there is one less hose coming off the first stage. Gone are the days where the octopus is dragging in the sand or across fragile coral. The breathable MultiMax is located where your BC inflator resides. This makes it easy to find since you operate your inflator many times throughout each dive. In an out-of-air situation, your hand knows right where to go.

- Large, color differentiated buttons are easy-to-use, even with thick gloves
- The soft-touch purge cover is located on the bottom of the unit so it will not be affected by strong currents
- Easy-connect, push-on hose connector is very glove friendly
- Downstream demand valve with venturi assist for performance and reliability
- Custom 26 in (66 cm) Miflex regulator hose allows maximum flow to the MultiMax
- Includes inlet protective cap to keep out water and particulates
- The MultiMax has successfully passed the certification tests required by EN250:2014 to an auxiliary emergency breathing device integrated with a buoyancy inflation system
- Available with either 3/4" or 1" hose connection

PART #	DESCRIPTION	RETAIL
RG370	Inspire MultiMax Breathable Inflator with 3/4" Connection	264.00
RG371	MultiMax Breathable Inflator with 1" Connection	264.00

SCUBA

Standard Octopus

The Standard Octopus is designed for the diver who wants the reliability of knowing they have a safe second in an emergency, but doesn't want to spend a fortune on a piece of equipment that they hope never to use. This octopus is a favorite of rental applications because of its simplicity of design.

Features:

- Designed to provide reliable breathing performance
- Simplicity of design is perfect for rental applications
- Large diaphragm for quick inhalation response
- Large exhaust valve decreases exhalation effort
- Yellow color is easy to find in an emergency
- Adjustable dive/predive switch
- 40 in (102 cm) yellow rubber hose

PART #	DESCRIPTION	RETAIL
RG360	Standard Octopus	100.00
RK9	Standard Octopus / Hookah Service Kit	16.00

AltAir Octopus

The AltAir utilizes the same patented quick-release buckles used on today's modern weight integrated BC's. Just grab and pull the AltAir, that's all that is needed to release the patented X-Lock™ buckle.

Features:

- Exclusive X-Lock™ attachment
- Intelligent, inline mouthpiece orientation
- Reliable, free-flow resistant design
- Choose 36 in (91 cm) yellow Miflex or 36 in (91 cm) black rubber hose

PART #	DESCRIPTION	RETAIL
RG300BK	AltAir Octopus - Black Rubber Hose	110.00
RG300YL	AltAir Octopus - Yellow Miflex Hose	132.00
RP300AH	AltAir Accessory Clip - Replacement	6.00
RK4	AltAir Service Kit	16.00

Hookah Regulator *(LP Hose Not Included)*

The term "hookah" refers to the breathing gas being supplied from the surface

- ***RG303*** - uses an intermediate pressure of 50–80 psi (3.5–5.5 bar) Often used with compact specialty compressors
- ***RG305*** - uses an intermediate pressure of 80–110 psi (5.5–7.5 bar) Often used with larger, commercial grade, specialty compressors
- ***RG310*** – uses an intermediate pressure of 110–140 psi (7.5–9.5 bar) Typically used with scuba cylinders left on the surface with a long hose
- A robust, over-built design for commercial-style use
- Venturi deflector to prevent accidental free-flows
- Simple and easy to service

Choose From:
50 to 80 PSI
80 to 110 PSI
110 to 140 PSI

XTR Extra Air *Complete Backup Rescue System*

Highland Mini Tech Gauge *(p/n HL502)*
0 to 5000 psi, wide 210 degree sweep
Chromed brass case w/ rubber boot

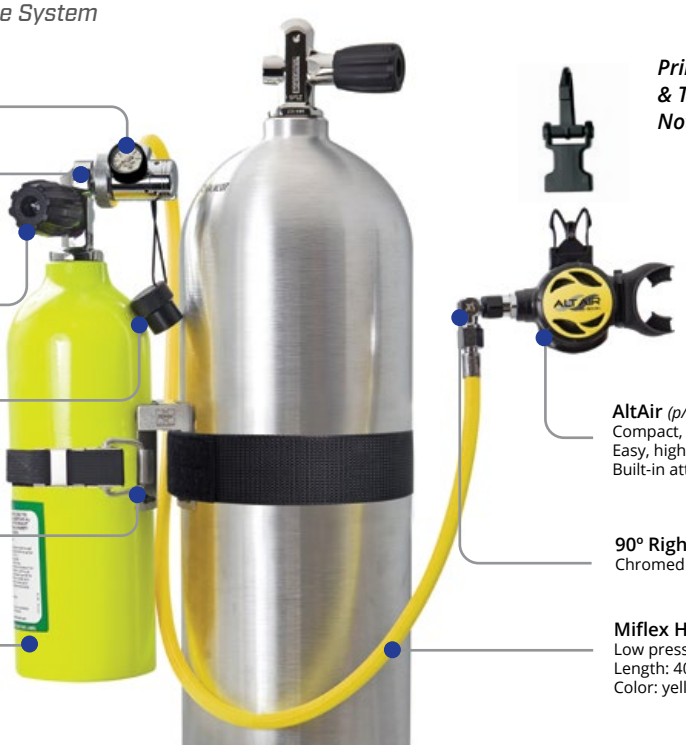
Highland Compact First Stage *(p/n HL406)*
Highland DIN direct inlet
Simple flow-by piston design

SAFETY HANDWHEEL
XS Scuba PRO Valve *(p/n VX200-30N-VI)*
Combination DIN/Yoke outlet
DIN insert included

DIN Cap *(p/n HL401)*
Seal water out of your first stage
Machined Delrin material

Highland Pony Mount *(p/n HL409 or HL412)*
Highland design
Stainless steel construction
Quick & easy attachment
Secure under your current BC strap

Cylinder Choices:
Aluminum 6 cu ft - neon yellow
Aluminum 13 cu ft - neon yellow (pictured)
Aluminum 19 cu ft - neon yellow



Primary Cylinder & Tank Cam Strap Not Included

AltAir *(p/n RG300)*
Compact, low profile octopus
Easy, high flow purge
Built-in attachment clip for BC

90° Right Angle Adapter *(p/n AC910)*
Chromed brass construction

Miflex Hose *(p/n MLP40-MY)*
Low pressure regulator hose
Length: 40 in (102 cm)
Color: yellow

RK4	AltAir Service Kit	16.00

HIGHLAND ENGINEERED QUALITY Compact Argon Regulator

- Compact, low profile first stage
- Specifically designed for drysuit inflation
- Flow-by piston design
- One HP and two MP ports
- Factory set I.P. at 115 to 125 psi at 3000 psi
- Direct attachment to 200 or 300 bar DIN connection
- Includes 22 in (56 cm) orange Miflex QD Hose
- Includes Over Pressure Valve (p/n AC395)
- Includes Delrin DIN Cap w/ lanyard (p/n HL401)
- Includes Mini Tech Gauge with rubber boot (p/n HL502)
- Optional Spin-On Yoke for yoke attachment (p/n AC370BK)

Optional Spin-On Yoke p/n AC370BK

For use with K valve

PART #	DESCRIPTION	RETAIL
HL405	Compact Argon Regulator with Gauge (psi)	220.00
HL405M	Compact Argon Regulator with Gauge (bar)	220.00
RK8	Service Kit / Compact DIN 1st Stage	23.00
AC370BK	Standard Spin-On Yoke - Black	60.00

HIGHLAND ENGINEERED QUALITY Compact DIN First Stage

- Compact, low profile first stage
- Flow-by piston design
- One HP and two MP ports
- Factory set I.P. at 135 to 145 psi at 3000 psi
- Direct attachment to 200 or 300 bar DIN connection
- Includes Delrin DIN Cap (p/n HL401)
- Clean for Nitrox up to 40% 02
- Optional Spin-On Yoke for yoke attachment (p/n AC370)

Optional Spin-On Yoke p/n AC370

For use with K valve

PART #	DESCRIPTION	RETAIL
HL406	Compact DIN First Stage	120.00
RK8	Service Kit / Compact DIN 1st Stage	23.00
AC370	Standard Spin-On Yoke	50.00

HIGHLAND ENGINEERED QUALITY Delrin DIN Cap

- Precision machined from Delrin
- Protects threads on DIN first stage
- Seals water out of first stage
- Fits all 200 bar and 300 bar DIN

PART #	DESCRIPTION	RETAIL
HL401	Delrin DIN Cap	10.00

⚠ **WARNING:** When shutting off gas supply to the second stage, there must be some other type of over-pressure relief device present.

⚠ **WARNING:** We recommend that you do not use these shut-off valves on rebreathers, especially on the oxygen side. Oxygen isolator valves increase the risk that the diver will inadvertently shut off the oxygen supply or forget to open the supply once isolation is no longer desired. Because the slide valve is fairly easy to close, there is the possibility of something briefly rubbing or brushing against the slide valve causes it to close inadvertently.

HIGHLAND ENGINEERED QUALITY Deluxe Inline Shut-Off

- Install between standard regulator hose and second stage
- Slide collar shuts off gas flow
- Commonly used with deco rigs, stage bottles & drysuit inflation
- Prevent critical gas loss
- 9/16"-18 UNF male inlet to 9/16"-18 UNF female outlet threads
- Low pressure use only - below 200 psi

PART #	DESCRIPTION	RETAIL
HL404-DLX	Deluxe Inline Shut-Off (for Second Stage)	66.00
HK404-DLX	Service Kit for HL404-38 and HL404	8.00

HIGHLAND ENGINEERED QUALITY Inline Shut-Off For First and Second Stage

Inline Shut-Off for First Stage

- Install between first stage MP port and standard regulator hose
- Slide collar to shut off gas flow
- Commonly used with rebreather systems
- 3/8"-24 UNF male inlet to 3/8"-24 UNF female outlet threads
- Low pressure use only - below 200 psi

Inline Shut-Off for Second Stage

- Install between standard regulator hose and second stage
- Slide collar to shut off gas flow
- Commonly used with deco rigs, stage bottles & drysuit inflation
- 9/16"-18 UNF male inlet to 9/16"-18 UNF female outlet threads
- Low pressure use only - below 200 psi

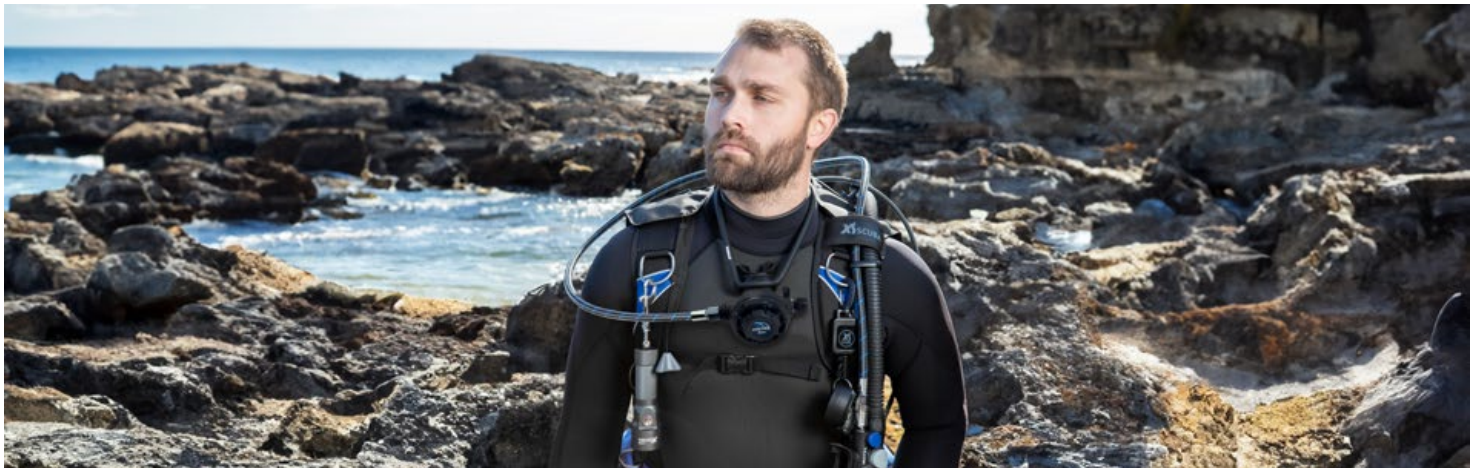
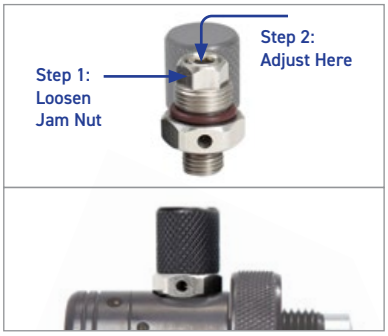
HL601YL-LG	Large Regulator Necklace	Yellow	10"	16.00



Rebuildable & Adjustable OPV
Over Pressure Valve - Stainless Steel

- Easy to adjust from 150 to 250 psi
- Factory preset at 200 psi (+/- 10 psi)
- All stainless steel construction with Viton O-rings
- Machined Delrin cap protects the adjustment point
- Compact relief valve releases pressure in the event of an over pressurization of the first stage
- Fits standard 3/8"-24 UNF MP regulator port



PART #	DESCRIPTION	RETAIL
AC396	Rebuildable & Adjustable OPV - Over Pressure Valve	42.00
AC396K	Service Kit for AC396	12.00

Standard OPV - Over Pressure Valve - Brass

- Factory set at 175 to 185 psi for pressure release (non-adjustable)
- Compact relief valve releases pressure in the event of an over pressurization of the first stage
- Chrome brass construction with Viton O-rings
- Stainless steel internal spring
- Non-rebuildable
- Fits standard 3/8"-24 UNF MP regulator port

PART #	DESCRIPTION	RETAIL
AC395	Standard Over Pressure Valve	15.00

Standard Spin-On Yokes

- Convert a DIN connection to a yoke connection
- Fits all 200 to 300 bar DIN valves
- All brass construction

Deluxe Spin-On Yoke - 316 SS

- Female DIN threads of 316 grade stainless steel
- Designed to withstand heavy-duty use

PART #	DESCRIPTION	RETAIL
AC370	Standard Spin-On Yoke - Chrome	50.00
AC370BK	Standard Spin-On Yoke - Black Chrome	60.00
AC370SS	Deluxe Stainless Steel Spin-On Yoke	66.00

Shown with optional Rook Knife

SeaBlazer BC

The SeaBlazer is a high-quality, weight-integrated, jacket style BC. By having the air-cell wrap around the diver's torso, it will provide vertical orientation at the surface while providing excellent stability and comfort underwater. The SeaBlazer offers the best ergonomics of any BC in the market today with easy-to-reach touch points, swivel shoulder buckles, and friendly, accessible pockets.

- Catch n' Release™ weight system for the easiest loading weight pockets
  - Secure your weights with visual, audible and tactile confirmation
  - Single-pull release for safety
- Large utility pockets on either side have lowered zippers with large pull bobs for easy access
- Non-ditchable trim weight pockets found on the back of the SeaBlazer (except size XS) increase the overall weight capacity as well as provide better positioning in the water. They secure with hook-and-loop flaps and side-release clips
- Swivel shoulder buckles allow the SeaBlazer to move with you while providing an optimal fit
- Enlarged thumb loops allow ease of adjustment while wearing thick gloves
- The two-piece waist band is adjustable in the back to accommodate a wide range of waist sizes
- The tank band features a stainless steel cam buckle with external adjustment
- Comes with XS Scuba's Micro Inflator but a MultiMax breathable inflator option is available
- A scooped opening on the top, front of the right lobe is perfect for stowing and deploying an octopus. The octopus remains visible and secure throughout the dive
- Some divers may find it useful to run their instruments behind the left pocket and out the scooped opening on the top, front of the lobe
- A tank positioning strap allows you to set your cylinder to the correct height every time
- An integrated carrying handle is built into the back pack
- 6 stainless steel D-rings provide many attachment options
- 3 dump valves are available: a cable-activated rapid exhaust valve at the top of the airway, a right shoulder pull dump and a lower, rear pull dump
- Knife mounting grommets on the left side accommodate an XS Scuba BC knife

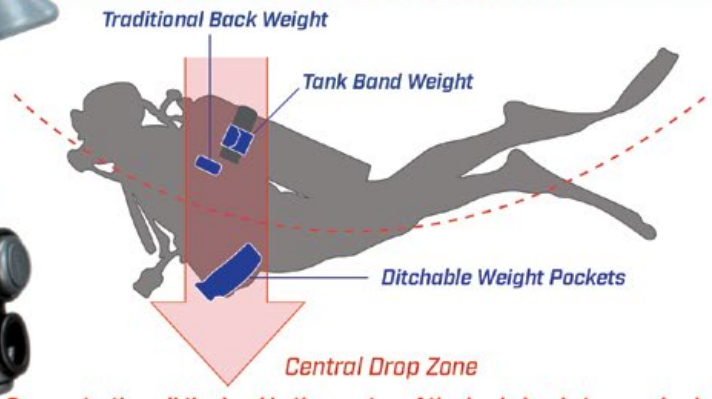
BC237		LG	40 / 170	594.00
BC239		XL	46 / 200	594.00

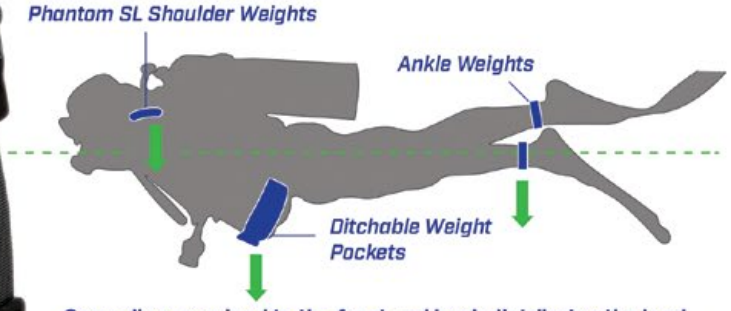
SPREAD YOUR LEAD

PROBLEM



Concentrating all the lead in the center of the body leads to poor body positioning, drag, increased air consumption and a sore lower back.

SOLUTION



Spreading your lead to the front and back distributes the load. You'll swim more streamlined and more comfortably! The Phantom SL allows you to Spread Your Lead!

The Phantom SL BC makes it easy to Spread Your Lead. Thin weight pockets, located high up on the back of the shoulders, isolate up to two, 2 lb weights on each side.

While 2 lb mesh shot bags will fit, XS Scuba strongly encourages using 2 lb hard blocks for a lower profile.

*Each Phantom SL BC includes a pair of 1 lb ankle weights to help you **Spread Your Lead.***

Phantom SL BC

The Phantom SL BC is a weight-integrated back-inflation BC. It will improve your buoyancy by allowing you to Spread Your Lead (see previous page). The Phantom SL offers many unique features making it comfortable and fun to dive.

- Comes with XS Scuba's Micro Inflator but a MultiMax breathable inflator option is available
- Weight pockets mounted up high on the shoulders for excellent lead spreading capability
  - Each pocket holds 2 x 2 lb weights (hard or mesh weights)
  - A total of 8 lbs (3.6 kg) can now be moved forward on the diver's body
- An internal, heavy-duty polyethylene chassis extends well into the shoulders to support the shoulder weight pockets and to keep diver's shoulders comfortable
- Includes a pair of 1 lb (454 g) ankle weights
- Catch n' Release™ weight system for the easiest loading weight pockets with single pull ditch for safety
  - Secure your weights with visual, audible and tactile confirmation
- Swivel shoulder buckles optimize the routing of the shoulder straps for a more custom fit
- Enlarged thumb loops accommodate gloved thumbs to more easily pull down on the shoulder straps
- Increased back padding for added comfort
- Lowered tank band integrates into BC's waistband to transfer the cylinder's weight to the hips
- Tank band features a stainless steel separating cam buckle for easy cylinder change-out
- No hard backpack allows the cylinder to stay in close, next to your body which makes the cylinder feel lighter
- Drop-down right pocket can hold slates or a small flashlight
- Knife mounting grommets on the left pocket
- 6 stainless steel D-rings provide many attachment options
- Only 4 sizes are needed to fit divers from XXS to XXL

SPREAD YOUR LEAD WITH PHANTOM SL

Shown with optional MultiMax Breathable Inflator & Rook Knife

Deploy the right pocket to hold larger items

The stainless cam buckle separates for quick change out of cylinders

Swivel shoulder buckles allow a custom fit

Pony Pac Harness

The Pony Pac is a quick, easy way to hit the water. It is a great choice for anyone who doesn't require an air bladder on their harness.

The Pony Pac has been upgraded with a downsized Catch n' Release™ weight pocket system. Custom receptacles on the lower back allow the user to easily click weight pockets into place. They can be ditched with a simple pull.

Used by:

- *First Responders for rapid entry into the water*
- *Boat owners for in-water maintenance*
- *Instructors for Intro to diving classes*

Low profile Catch n' Release™ weight pockets

- Fits 13, 19, 30 and 40 cu ft pony cylinders with 4.0 – 5.4 in (102 - 137 mm) diameters
- Can accommodate up to 10 lbs (4.5 kg) of lead weight
- Extra-large thumb loops for cinching down shoulder straps
- Rolled neoprene neck collar for maximum comfort
- Knife mounting grommets on waist band are ideal for the Rook Knife (p/n KN500)
- 2-way adjustable sternum strap
- Can be upgraded to a compact, travel BC with the addition of a Companion Air Cell (p/n BC530)

PART #	DESCRIPTION	SIZE	WAIST SIZE	WEIGHT POCKETS	RETAIL

BC509		X-Large	45" to 55"	Two 5 lbs	231.00

Turn Your PonyPac Into a Companion BC

PART #	DESCRIPTION	RETAIL
BP500	Tank Bands (Pair) - Standard Length 6.9 to 8.0 in diameter	44.00
BC530	Companion Air Cell with Inflator, QD Hose and airway hold-down	225.00

Companion *The Ultra Compact Travel BC*

By adding a compact wing to the Pony Pac, you have the Companion BC, an ultra-compact travel BC. The Companion BC is 40% lighter than traditional BC's weighing in at only 5 lbs (2.3 kg). Take advantage of the versatility that a removable air cell can offer.

- Back inflation design with 30 lbs (13.6 kg) of lift
- Two rear weight pockets have an exclusive Catch n' Release™ mounting system. Each pocket is capable of holding 5 lbs (2.3 kg)
- Includes two standard length tank cam straps (p/n BP500)
- Fits cylinder diameters of 6.9 - 8.0 in (175 - 203 mm)
- Rear pull dump on lower, right side
- Removable epaulette (airway hold down)
- Knife mounting grommets are ideal for Rook Knife (p/n KN500)
- Two-way adjustable sternum strap
- Extra-large thumb loops for cinching down shoulder straps

BC507C		Regular	30 lbs	Two 5 lbs	528.00
BC509C		X-Large	30 lbs	Two 5 lbs	528.00

Triton

The Triton BC is a non weight-integrated, wrap-around style jacket. While it will certainly be favored by lockers, schools and resorts because of its price and features, it does not look institutional or entry level in any way. In fact, quite the contrary. It is stylish and feature-rich. It is a BC that you will be proud to display in your retail store. We invite you to compare these features with other BC's in this category.

- The air cell is made from 1000D material for maximum wear and abrasion resistance
- An external sizing tag, which can be removed if not wanted, is useful in locker situations
- The two-piece cummerbund can be adjusted for size or be replaced with a different size altogether
- Chest strap – included
- Lower, rear dump valve – included
- Right shoulder pull dump – included
- 2 large utility pockets are available for your accessories
- Includes 3 large D-rings to attach your favorite accessories
- A scooped opening on the top front of the right lobe is perfect for stowing and deploying an octopus
- Some divers may find it useful to run their instruments behind the left pocket and out the scooped opening on the top, front of the left lobe
- Triton's stability is provided by a backpack with an integrated carry handle
- The compressed foam back pad provides comfort
- An integrated positioning strap allows you to set your Triton with your preferred cylinder height dive after dive
- Comes standard with XS Scuba's Micro inflator, a drift pin design that increases reliability by not relying on an internal schrader valve
- Available in 5 sizes XS – XL

SV01	Adult Snorkeling Vest	100 to 240 lbs	62.00
SV02	Junior Snorkeling Vest	50 to 100 lbs	58.00

HIGHLAND ENGINEERED QUALITY

VALOR

NEW FOR 25

The Highland Valor is a backplate-integrated harness. It is the chassis that supports multiple plates, wings and technical pockets. It provides a level of comfort and support that is lacking with a 2 in (50 mm) web continuous-weave harness. Use it to build out a technical rig for extended range diving or customize it for a tropical getaway. Its greatest asset is its versatility.

- Can be used with, or without, a backplate
- Supports twin cylinders when backplate is installed
- Waist panels are reinforced with high-density polyethylene sheets to support heavy weight pockets, utility pockets, or accessories
- Includes 14 stainless steel D-rings for optimal attachment of accessories
- Removable back pad
- Removable SOLAS reflector on left shoulder
- Knife mounting grommets found on both left and right waistband
- 2 sets of 11 in (280 mm) centered grommets on back for mounting twin cylinder bands or single tank adapter

Attached Bottom-Drop Catch n' Release weight pocket (p/n HL208)

MULTIPLE ACCESSORY POCKET OPTIONS

Side-Slide Catch n' Release™ weight pockets (p/n HL209)

Bottom-Drop Catch n' Release™ weight pockets (p/n HL208)

Zephyr Pocket (p/n HL225)

Hurricane Pocket (p/n HL215)

Tempest Pocket (p/n HL220)

Squall Pocket (p/n HL230)

HL820-LG		Large	550.00
HL820-XL		X-Large	550.00

HIGHLAND ENGINEERED QUALITY Tec/Rec Harness

Highland Tec/Rec Harnesses come complete with high-quality hardware. From the dedicated harness webbing to the shoulder pads, the quality of this harness is evident throughout.

- Available with your choice of backplate
- Classic minimalist harness
- Simple, continuous weave design can be easily customized
- The 2 in (50 mm) nylon web is specifically sourced for harness and crotch strap application
- Includes two 5 mm thick neoprene shoulder pads (p/n HL805)
- Includes 6 D-ring attachment points (2 waist, 2 shoulders, 2 crotch strap)
- Includes adjustable crotch strap (p/n HL810)
- Assembly not included

The harness is also available by itself (p/n HL803), without the backplate or shoulder pads. It includes the crotch strap, waist buckle, D-rings and retainers.

HIGHLAND ENGINEERED QUALITY 37 lb Single Wing / 45 lb Twin Wing

Highland Wings are built strong, using the best fabrics and materials. The designs are versatile and cross-compatible so that they easily adapt to other brands of backplates and harnesses.

Highland Wings feature streamlined, low-profile hardware including a low-profile elbow on the upper left.

- 360° full circle design allows quick left/right gas transfer
- 4 cam slots allow direct attachment to cylinder with nylon cam bands
- Each model has a carrying handle strong enough to lift the attached cylinder(s)
- "K-Style" tech inflator on an elliptical 19 in (23 cm) corrugated hose
- 25 in (63.5 cm) Miflex quick-disconnect hose (carbon color)
- The 37 lb single wing has an anti-roll bar assembly (removable)

HIGHLAND ENGINEERED QUALITY 20 lb & 37 lb Wing Travel Packages

Perhaps you're a fan of diving plates and wings instead of traditional BC's, but you don't like the bulk and weight when heading off to tropical destinations, or you're a minimalist who likes the ultimate in streamlined setups, Highland has the package for you!

We mate our 1 lb ultralight aluminum travel plate with our streamlined wings, add a cushy back pad and two tank bands to bring you the minimal, lightweight travel package. ***The Highland HL20W-PKG only weighs 7.65 lbs, the HL37W-PKG weighs ??? lbs***

The Highland Travel Packages Include:

- ***20 lb Travel Wing*** *(p/n HL20W)* ***or 37 lb Wing*** *(p/n HL37W)*
  Features low-profile dump valves and cylinder anti-roll bars
- ***Aluminum Travel Backplate*** *(p/n HL801-TP)*
  This dog bone shaped plate weighs in at a mere 1 lb 1 oz (495 g)
  Includes webbing slide bars
- ***Custom Fitted Back pad*** *(p/n HL808)*
  Includes an integrated storage pocket and 4 attachment book screws
- ***Tec/Rec Harness*** *(p/n HL803)*
  Includes crotch strap and all necessary hardware
- ***Shoulder Pads*** *(p/n HL805)*
  Made from quality 5 mm neoprene
- ***SS Book Screw Set*** *(p/n HL510)*
  Includes 2 book screws made from 316 stainless steel
- ***Tank Bands with SS Cam Buckles - Pair*** *(p/n HL211)*
  Stainless steel makes these cam buckles indestructable

HL250	Highland Weight Plates - 2 Pack	27.00
ASSEMBLE	Assemble the harness to the backplate	-

HIGHLAND ENGINEERED QUALITY Back Pad for Aluminum Travel Plate

Travel plates are often used in the tropics where minimal thickness exposure suits are worn. As such, a back pad is used so that the diver doesn't have to feel the hard plate on their back. The Highland Back Pad is custom made specifically for the ultra-lightweight Aluminum Travel Plate. It is neutrally buoyant, has a large utility pocket and includes the attachment hardware.

- Attaches to the Highland Aluminum Travel Plate (p/n HL801-TP) using 4 plastic book screws (included)
- An integrated large utility pocket is ideal for carrying lift devices or other accessories
- The comfort comes from the use of 3D open cell mesh foam. Open cell foam does not add inherent buoyancy and it drains and dries quickly
- Backside is made of 1000D nylon

Premium quilted padding

Storage pocket

Dimensions
11 x 15 in
28 x 63.5 cm

PART #	DESCRIPTION	RETAIL
HL808	Back Pad for Aluminum Travel Plate (incl. hardware)	61.00

HIGHLAND ENGINEERED QUALITY 20 lb Travel Wing

The Highland Travel Wing makes a nice addition to a diver's modular plate and wing system. Due to its streamlined profile and light weight, it lends itself well to traveling or to those dives when you just feel like being a minimalist.

- Includes 25 in (63.5 cm) Miflex QD Carbon hose
- 16 in (41 cm) corrugated hose with K-style inflator
- Low-profile, rapid-exhaust dump on the upper left
- Low-profile dump on the lower inside left
- Integrated carrying handle on the top center
- Removable tank anti-roll assembly
- Vent at the top center allows air to quickly escape between the inner and outer bag
- Spiral hose retainer loop
- Outer bag made from 1000D nylon with PU coating
- Inner bladder made from 210D nylon
- 4 slots allow direct attachment to cylinder with nylon cam bands
- 2 sets of 11 in (280 mm) centered grommets
- Length (deflated): 21.7 in (55.1 cm)
- Width (deflated): 14.2 in (36.1 cm)
- Weight: 2.3 lbs (1.04 kg)

PART #	DESCRIPTION	RETAIL
HL20W	20 Pound Travel Wing	360.00

SLIMTRIM
WEIGHT HARNESS

NEW FOR 25

The SlimTrim weight harness attributes its slim profile to dual-channel weight pockets that allow up to 4-pieces of lead, per pocket, to be right up against your body. Loading the pockets is a breeze with the Catch n' Release mechanism, which allows you to simply slide the pocket into its sheath and then engage it with a visual, tactile, and audible "click"!

- 42 lb (19 kg) total weight capacity
  - · 32 lb (14.5 kg) of ditchable weight
  - · 10 lb (4.5 kg) of non-ditchable weight (except in size Small)
- Two 16 lb (7.25 kg) Catch n' Release™ weight pockets, release with a single pull
- Two 5 lb (2.25 kg) rear non-ditchable trim pockets fold flat onto the harness when not used
- Weight can be fully adjusted vertically to optimize trim and comfort
- The yoke and waist sections of the harness are built with high-density polyethylene (HDPE) to better distribute the load and eliminate pressure points
- Harness webbing sewn directly to the HDPE base and attached to webbing straps with SS rings for maximum strength and durability
- Optional HL250 weight plates can be mounted on shoulder straps for additional trimming opportunities
- Can be worn with wetsuits or drysuits and underneath BCs or harnesses

HL825-REG		Regular	275.00
HL825-LG		Large	275.00

HIGHLAND ENGINEERED QUALITY Backplates

The backplate is the chassis that supports the entire kit. Technical divers choose Highland backplates because of the attention given to the small details such as beveled edges and slot placement.

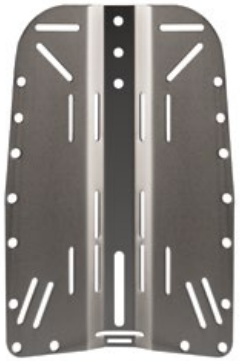
- All edges are beveled to protect the harness webbing
- The 3 holes at the top of the plate offer variable height adjustment for air cell and cylinder mounting. In addition, a corresponding lower oval slot allows for lower band bolts that may be misaligned
- Slots at bottom for use with 1 in (2.5 cm) or 2 in (5 cm) crotch strap
- 3/8 in (9.5 mm) accessory mounting holes along the sides and bottom
- Hardware not included

Aluminum Travel Backplate

- 5052 aluminum alloy with tungsten anodized finish
- 1 lb 1oz (495 g)
- *Slide bars included*

Aluminum Backplate

- 6061 aluminum alloy with black anodized finish
- 1 lb 11oz (765 g)



Stainless Steel Backplate

- 304 stainless-steel, 11-gauge (.115 in / 3 mm)
- 5 lbs (2.3 kg)

HL801-SS	Stainless Steel Backplate	165.00

HIGHLAND ENGINEERED QUALITY Book Screw, 316 SS

Invaluable accessory for all technical set-ups! Useful for attaching wings, or accessories, to backplates.

- Made from 316 stainless steel
- Will pass through 3/8 in (9.5 mm) hole
- Includes friction O-rings

Dimensions
Head diameter: 0.74 in (18.8 mm)
Shaft diameter: 0.33 in (8.4 mm)
Internal lenghth: 0.43 in (10.9 mm) / 0.75 in (19 mm)

PART #	DESCRIPTION	RETAIL
HL510	SS Book Screw - 0.43 in (10.9 mm) Inside Length	12.00
HL511	SS Book Screw - 0.75 in (19 mm) Inside Length	15.00

HIGHLAND ENGINEERED QUALITY Plastic Book Screws, 4-Pack

A low-cost alternative to the HL510 stainless steel model above, use these plastic book screws for a wide range of applications, such as joining a single cylinder plate and wing when a single tank adapter will not be used.

- Will pass through 3/8 in (9.5 mm) hole
- Non-corrosive, durable plastic material for long life
- Includes 4 complete book screws

Dimensions
Head diameter: 0.74 in (18.8 mm)
Shaft diameter: 0.36 in (9.1 mm)
Internal length: 0.35 in (8.9 mm)

PART #	DESCRIPTION	RETAIL
HL515	Plastic Book Screw, 4-Pack	12.00

HIGHLAND ENGINEERED QUALITY STA - Single Tank Adapter

- 14 gauge .074 in (1.9 mm) 316 grade stainless steel
- A quick, easy way to mount a single cylinder to a backplate and harness
- Attaches to cylinder with two cam bands
- Center-to-center distance of 11 in (28 cm)
- Includes hardware
- Weight: 13 oz (369 g) without hardware

Includes

3.2 x 11.8 in
8 x 30 cm

PART #	DESCRIPTION	RETAIL
HL802	Stainless Steel Single Tank Adapter	77.00
BK802	Replacement Hardware	28.00

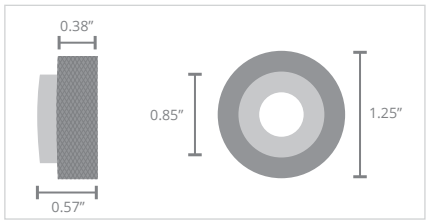
HIGHLAND ENGINEERED QUALITY Slide Bars for Backplates

With continuous weave harnesses, it can often be difficult to tighten the shoulders by pulling on the waist straps. This is due to friction caused by the tortuous path that the webbing makes as it goes through the dual slots in the backplate. The Slide Bars mount on the back of the plate, between the slots. The slick, rounded surface minimizes the friction and makes the waist straps easier to pull through.

PART #	DESCRIPTION	RETAIL
HL816	Slide Bars for Backplates (Pair)	9.00

HIGHLAND ENGINEERED QUALITY Delrin Speed Nuts

- Strong, durable alternative to traditional wingnuts
- Knurled gripping surface for easier disassembly
- Available in two thread sizes:
  - 3/8" - fits Highland bands hardware p/n SB725
  - 5/16" - fits Highland bands hardware p/n SB800



PART #	DESCRIPTION	RETAIL
HL407	3/8" Delrin Speed Nuts (Pair)	16.00
HL408	5/16" Delrin Speed Nuts (Pair)	16.00
HL410	M8 x 1,5 Delrin Speed Nuts (Pair)	16.00
HL415	M8 x 1,25 Delrin Speed Nuts (Pair)	16.00

HIGHLAND ENGINEERED QUALITY Shoulder Pads *(Pair)*

Add comfort and protect your exposure suit, by covering your web harness shoulder straps with these Highland shoulder pads.

- Made from quality 5 mm neoprene
- Simply slide over 2 in (50 mm) webbing
- Glued and stitched
- Seams reinforced with bar tack stitching

PART #	DESCRIPTION	RETAIL
HL805	Highland Shoulder Pads (Pair)	18.00

HIGHLAND ENGINEERED QUALITY Bulk Harness Webbing

- High-grade 2 in (50 mm) nylon webbing sourced specifically for building technical harnesses
- Softer than standard weight belt webbing
- Less abrasive on exposure suits
- 50 yard (45.7 m) roll

PART #	DESCRIPTION
NW50-HW	Bulk Harness Webbing - 50 yds (45.7 m)

HIGHLAND ENGINEERED QUALITY SS Harness Buckle

- 304 stainless steel harness buckle
- Designed to fit 2 in (50 mm) webbing

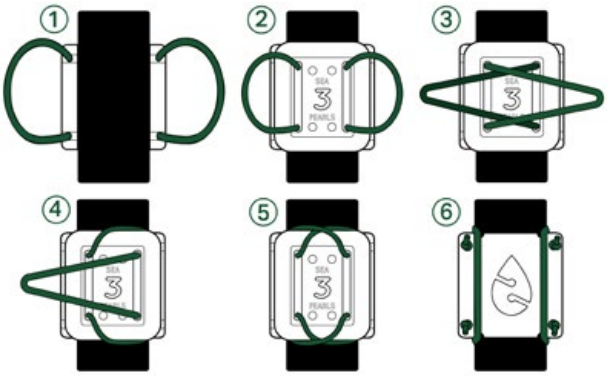
PART #	DESCRIPTION	RETAIL
HL414	SS Harness Buckle	20.00

HIGHLAND ENGINEERED QUALITY *Original* Weight Plates - 2 Pack

Highland Weight Plates are a quick and easy way to add blocks of lead to a 2 in (50 mm) wide piece of webbing such as a harness or weight belt. This will allow for fine tuning of your weight requirement without having to do any disassembly. ***Don't settle for imitations made from inferior materials and bungees.***

- Includes 2 plates and 4 pieces of green bungee
- Plate is molded from rugged glass-filled nylon for maximum durability
- Recommended for 1, 2, 3 and 4 lb blocks of lead

For use with Lace-Thru Weights



PART #	DESCRIPTION	RETAIL
HL250	Highland Weight Plates - 2 Pack	27.00

HIGHLAND ENGINEERED QUALITY Bottom-Drop Weight Pockets *(Pair)*

- Full size weight pocket to add lead weights to a diving harness
- Load weights from the top zipper
- Uses the single-pull Catch n' Release™ dump mechanism
- Attaches to 2 in (50 mm) webbing
- Each pocket holds up to 15 lbs (7 kg) of lead weights

PART #	DESCRIPTION	RETAIL
HL208	Bottom-Drop Weight Pockets (Pair)	117.00

HIGHLAND ENGINEERED QUALITY Side-Slide Weight Pockets *(Pair)*

Side-Slide weight pockets are an easy way to add lead to a 2 in (50 mm) webbed harness, usually associated with a backplate and a wing.

- Large, side-squeeze 2 in (50 mm) buckles on the front of the pocket for easy release of weights
- Adjustment strap with D-ring to cinch down for snug fit
- Each pocket holds up to 12 lbs (5.5 kg) of lead weights
- The dual grommet tail on the back allows for attachment to the backplate. This keeps pouches from sliding forward
- A 30° angled web retainer on the back provides an option to mount the weights at an upward angle, a feature desirable to small waisted divers
- Book screws not included

PART #	DESCRIPTION	RETAIL
HL209	Side-Slide Weight Pockets (Pair)	116.00
BPH51	Inner Replacement Pocket - Black (Single)	33.00

HIGHLAND ENGINEERED QUALITY Crotch Strap

- Built from 54 in (137 cm) of 2 in (50 mm) harness webbing
- Rivet construction for maximum durability
- Included with Tec/Rec Harness (p/n HL803)
- Includes front and back D-rings and size adjuster

PART #	DESCRIPTION	RETAIL
HL810	Crotch Strap	31.00

HIGHLAND ENGINEERED QUALITY Sternum Strap

- Built from 1.5 in (38 mm) webbing - 11 in (280 mm) long
- 2 x 4 in (5 x 10 cm) SS sliders for extreme durability
- 4 SS rivets hold everything together
- Includes 2 serrated stays to accommodate thinner webbing and 2 D-rings for attachment points

PART #	DESCRIPTION	RETAIL
HL815	Sternum Strap	60.00

Standard Backpack

- Traditional single tank backpack
- Blow-molded plastic construction
- 2 in (50 mm) black harness webbing
- Adjustable tank band with cam buckle
- Will accommodate 6.9 in (175 mm) to 8.0 in (203 mm) cylinders
- SS quick-release at shoulder and waist
- Built-in carry handle
- Overall length 15 in (38 cm)

Consider adding a pair of HL805 Highland Shoulder Pads *(pg. 28)*

PART #	DESCRIPTION	RETAIL
BP100	Standard Backpack	76.00
HL805	Highland Shoulder Pads (Pair)	18.00

HIGHLAND ENGINEERED QUALITY Tank Bands with SS Cam Buckles *(Pair)*

Now two models to choose from, separating and non-separating!

These rugged tank bands, featuring stainless steel cam buckles, are indestructible. An integrated, large protective pad protects the surface finish on your cylinder.

- Designed to fit on cylinders with diameters of 6.9 in (175 mm) to 8.0 in (203 mm)
- Enlarged protective webbing lays behind the buckle to protect the cylinder finish
- Backside of webbing has integrated anchor pad, which eliminates tank slippage
- Traditional 3-slotted cam buckle made from marine grade 316 stainless steel
- The HL201 separating design allows for quick cylinder changeouts
- The HL211 is a traditional, non-separating design

PART #	DESCRIPTION	RETAIL
HL201	Tank Bands with SS Cam Buckles (Pair)	92.00
HL211	Tank Bands with Non-separating SS Cam Buckles (Pair)	91.00

Tank Band with SS Buckle *(Single)*

The XS Scuba tank band with the separating stainless steel buckle is the easiest, most secure way to attach your cylinder to your BC.

- Standard length, as found on SeaBlazer, fits most BC's that have standard backpacks
- Shorter length, as found on Phantom, fits most BC's without hard packs
- Both versions fit 6.9 in (175 mm), 7.25 in (184 mm) & 8.0 in (203 mm) diameter cylinders
- Cam buckle made of marine grade 304 stainless steel
- The buckle separates for easy removal of BC from cylinder
- Tension can be adjusted while on cylinder
- Integrated anchor pad prevents tank slippage

PART #	DESCRIPTION	RETAIL
BP505	Tank Band w/ SS Buckle (Single) - Standard Length - 31.25 in (793 mm)	68.00
BP510	Tank Band w/ SS Buckle (Single) - Phantom BC Length - 28.25 in (717 mm)	68.00

Tank Bands *(Pair)*

- Injection-molded cam buckles
- Molded from nylon with glass fill
- Standard length has overall webbing length of 40 in (102 cm)
- Short length has overall webbing length of 26 in (66 cm)

PART #	DESCRIPTION	CYLINDER DIAMETER	RETAIL
BP500	Tank Bands (Pair) - Standard Length	6.9 to 8.0 in	44.00
BP550	Tank Bands (Pair) - Short Length	4.0 to 5.25 in	44.00

HIGHLAND ENGINEERED QUALITY Inflator

- Strong and reliable
- Able to service in the field with TL126 Inflator Tool and BPH20 Replacement Cartridge

- Fits Highland wings, XS Scuba BC's, lift bags and SMBs with 2 in (50 mm) diameter, grey manifolds with fine threads

BP52

BP58 - 2 in (50 mm) Pull Dump Assembly – Current Style - Coarse Threads

- Comes un-assembled with 20.5 in (77.5 cm) of cord
- Can be configured into a right shoulder pull dump or a lower rear pull dump
- Fits Highland wings, XS Scuba BC's, lift bags and SMBs with 2 in (50 mm) diameter, clear manifolds with coarse threads

BP58

BPH44 - 2 in (50 mm) Pull Dump Assembly - Current Style - Internal Threads

- Pre-assembled to 4 in (100 mm) length
- Fits Highland wings and XS Scuba BCs with 2 in (50 mm) diameter, clear manifolds with internal threads

BPH44

PART #	DESCRIPTION	RETAIL
BP52	2 in (50 mm) Pull Dump Assembly – Older, fine-thread gray manifolds	13.00
BP58	2 in (50 mm) Pull Dump Assembly – Coarse-threaded, clear manifolds	12.50
BPH44	2 in (50 mm) Pull Dump Assembly - Internal-threaded Manifolds	12.00

Corrugated Hose for Breathable Inflator

- 16 in (41 cm) length with 3/4 in (19 mm) upper diameter and 1 in (25 mm) lower diameter
- This is an alternate corrugated hose for XS Scuba BC's which allows you to attach a breathable inflator, with 1 in (25 mm) bore

PART #	DESCRIPTION	RETAIL
BP636-16	16 in (41 cm) Corrugated Hose 3/4 in (19 mm) Upper x 1 in (25 mm) Lower	16.00

QuikVu Console – Pressure, Depth & Compass

QuikVu Consoles are compact, lightweight, and have attachment points on both sides. The thin, braided HP hose is lighter weight and more flexible than a traditional rubber hose.

Front Side

Depth Gauge (p/n GP31, GP31M, GP31DS)

- Depth gauge scale is 0 to 200 ft (0 to 60 m)
- Includes a maximum depth indicator needle
- Luminescent gauge face
- Glass-filled nylon housing with shatterproof lens

Pressure Gauge (p/n GP28, GP28M, GP28DS)

- Pressure gauge scale is 0 to 5000 psi (0 to 400 bar)
- The Beryllium-Copper spiral-wound coil ensures greater reliability and compactness
- Bourdon Tube design provides accurate measurements under depth
- Luminescent gauge face

Back Side

Compass (p/n GP40)

- Large gun sight style viewing window allows for easy and accurate navigation
- Compasses have strong magnets to guarantee accuracy and quick response times
- Reads accurately over a wide tilt range
- The luminescent dial rests on a precision sapphire jewel
- Large, secure 360° ratcheting bezel

- Includes 32 in (81 cm) braided HP hose
- CE 0598:EN 250 and UKCA 0120:EN250 certified

PART #	DESCRIPTION	UNITS	RETAIL
GA310	QuikVu Console - 3 Gauge	psi/feet	245.00
GA310M		bar/meters	245.00
GA310DS		dual scale	245.00

QuikVu Console – Pressure & Depth

Ergonomic styling gives the Combo 2-Gauge a slim profile and comfortable grip. Integrated attachment points on both sides provide multiple options for gear configuration. The thin, braided HP hose is lighter weight and more flexible than a traditional rubber hose.

Depth Gauge (p/n GP31, GP31M, GP31DS)

- Depth gauge scale is 0 to 200 ft (0 to 60 m)
- Includes a maximum depth indicator needle
- Luminescent gauge face
- Glass-filled nylon housing with shatterproof lens

Pressure Gauge (p/n GP28, GP28M, GP28DS)

- Pressure gauge scale is 0 to 5000 psi (0 to 400 bar)
- The Beryllium-Copper spiral-wound coil ensures greater reliability and compactness
- Bourdon Tube design provides accurate measurements under depth
- Luminescent gauge face

- Includes 32 in (81 cm) braided HP hose
- CE 0598:EN 250 and UKCA 0120:EN250 certified

PART #	DESCRIPTION	UNITS	RETAIL
GA210	QuikVu Console - Press/Depth	psi/feet	210.00
GA210M		bar/meters	210.00
GA210DS		dual scale	210.00

QuikVu Console – Pressure & Compass

This stylish, low-profile combo pairs beautifully with any wrist-mount dive computer. Integrated attachment points on both sides provide multiple options for gear configuration. The thin, braided HP hose is lighter weight and more flexible than a traditional rubber hose.

Compass (p/n GP40)

- Large gun sight style viewing window allows for easy and accurate navigation
- Compasses have strong magnets to guarantee accuracy and quick response times
- Reads accurately over a wide tilt range
- The luminescent dial rests on a precision sapphire jewel
- Large, secure 360° ratcheting bezel

Pressure Gauge (p/n GP28, GP28M, GP28DS)

- Pressure gauge scale is 0 to 5000 psi (0 to 400 bar)
- The Beryllium-Copper spiral-wound coil ensures greater reliability and compactness
- Bourdon Tube design provides accurate measurements under depth
- Luminescent gauge face

- Includes 32 in (81 cm) braided HP hose
- CE 0598:EN 250 and UKCA 0120:EN250 certified

GA220	QuikVu Console - Press/Compass	psi/feet	210.00
GA220M		bar/meters	210.00
GA220DS		dual scale	210.00

QuikVu Pressure Gauge

The slim, ergonomic design of this pressure gauge fits perfectly in the hand. Attachment points on either side provide multiple options for gear configuration. The thin, braided HP hose is lighter weight and more flexible than a traditional rubber hose.

Pressure Gauge (p/n GP28, GP28M, GP28DS)

- Pressure gauge scale is 0 to 5000 psi (0 to 400 bar)
- The Beryllium-Copper spiral-wound coil ensures greater reliability and compactness
- Bourdon Tube design provides accurate measurements under depth
- Luminescent gauge face

- Includes 32 in (81 cm) braided HP hose
- CE 0598:EN 250 and UKCA 0120:EN250 certified

GA110	QuikVu Pressure Gauge	psi	132.00
GA110M		bar	132.00
GA110DS		dual scale	132.00

QuikVu Wrist Depth Gauge

The QuikVu Wrist Depth Gauge has been scaled down, making it smaller than the average wrist gauge. The glove-friendly buckle and strap assembly has depth-compensating corrugated ribs to keep the gauge snug at depth.

Depth Gauge (p/n GP31, GP31M, GP31DS)

- Depth gauge scale is 0 to 200 ft (0 to 60 m)
- Includes a maximum depth indicator needle
- Luminescent gauge face
- Glass-filled nylon housing with shatterproof lens

- CE 0598:EN 250 and UKCA 0120:EN250 certified

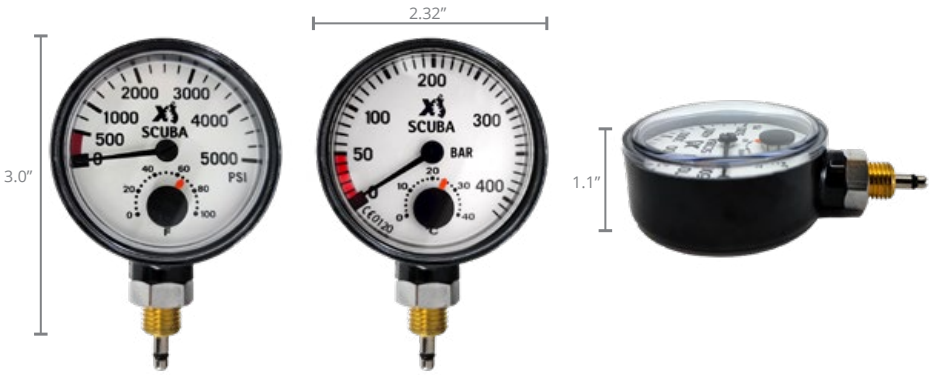
Legacy Pressure Gauge Module

This common pressure gauge module comes from Pelagic Pressure Systems. In addition to XS Scuba, it fits in many different brands of older console boots, including, but not limited to Aqua Lung / US Divers, Oceanic, and Sherwood.

- 0 – 5000 psi (0 – 420 bar)
- Built in thermometer (°F/°C)
- Includes HP spool (p/n GP10)
- Luminescent gauge face



PART #	DESCRIPTION	UNITS	RETAIL
GP01	Legacy Pressure Gauge Module	psi	84.00
GP01M		bar	84.00

HIGHLAND ENGINEERED QUALITY Pressure/Compass Combo w/ Miflex Hose

Pressure Gauge
- Chromed brass housing w/ Lexan lens (Thin-Line SPG)
- 0 to 5000 psi (0 to 400 bar)
- Luminescent gauge face
- Airspool with Viton O-rings

Miflex Hose
- 32 in (81 cm) Miflex Carbon HD braided outer layer
- Manufactured in Italy

Attachment Clips
- Two loops for attachment

Compass
- Highly accurate movement
- Tilt of up to 18°
- Top and side reading
- Large ratcheting bezel
- Luminescent face
- Northern hemisphere

PART #	DESCRIPTION	UNITS	RETAIL

HIGHLAND ENGINEERED QUALITY PVD Coated Brass & Glass Gauges

Highland has expanded its popular line of Brass & Glass analog gauges with the addition of two models that sport a PVD coating. PVD (Physical Vapor Deposition) coatings dramatically improve the appearance and durability of a product. This hard-as-nails coating is 300 times harder than chrome.

- PVD over double chrome mirror plating for best look & durability
- Available in imperial units (PSI) or in a dual-scale (PSI / BAR)
- 2 in (5 cm) diameter
- Preferred gauge for technical diving due to high level of accuracy and reliability
- Range graduations: 0 – 5000 psi / 0 – 350 BAR

PART #	DESCRIPTION	UNITS	RETAIL
HL301-PVD	Highland 2 in (5 cm) SPG PVD Finish	Imperial	142.00

Pony Bottle Gauge

This ultra-compact, submersible pressure gauge is ideal for pony bottles and emergency breathing systems. It provides a clear pressure reading at your regulator's HP port.

- Working Pressure: 4500 psi (310 bar)
- 0 – 5000 psi scale with accuracy at 5% tolerance of full scale
- Operating Depth: 330 ft+ (100 m+)
- Polycarbonate lens
- Beryllium-copper (BeCu) tube design provides accuracy and reliability
- Built-in over-pressure relief plug
- 7/16"-20 UNF threads with an EPDM ring

PART #	DESCRIPTION	RETAIL
GA055	Pony Bottle Gauge	72.00

HIGHLAND ENGINEERED QUALITY Mini Tech Gauge

- Available as gauge only, or in kit form
  - The gauge will thread directly into a regulator's first stage HP port
  - With a complete kit, it will thread onto the end of a HP hose
- Kit includes gauge, rubber boot, in-line adapter and airspool
- 0 to 5000 psi (0 to 350 bar)
- Gauge and airspool include Viton O-rings
- Attractive clamshell packaging (kit only)

Adapter Included in Kit

Airspool Included in Kit

Boot Included in Kit

HIGHLAND ENGINEERED QUALITY Rubber Boot for Mini Tech SPG

- Sold by itself or as part of the HL501 Mini Tech Gauge Kit
- Fits all 1 in (2.54 cm) diameter gauges that are approximately 0.88 in (22 mm) deep

PART #	DESCRIPTION	RETAIL
HL503	Rubber Boot for Mini Tech SPG	7.50

HIGHLAND ENGINEERED QUALITY Inline Gauge Adapter

- Included with Mini Tech Gauge Kit
- Use to mount a Mini Tech Gauge to HP hose
- Inline (180°) with the HP hose
- Airspool with Viton O-rings included

Airspool Included

PART #	DESCRIPTION	RETAIL
HL403	Inline Gauge Adapter	38.00

HIGHLAND ENGINEERED QUALITY 90 Degree Gauge Adapter

- Not included with Mini Tech Gauge Kit
- Use to mount a Mini Tech Gauge to HP hose
- Right angle (90°) with the HP hose
- Airspool with Viton O-rings included

Airspool Included

PART #	DESCRIPTION	RETAIL
HL403-90	90 Degree Gauge Adapter	34.00

HIGHLAND ENGINEERED QUALITY Airspools

- Required swivel between HP hose and SPG
- Brass construction

Miflex LP Braided Hoses

- Lightweight and flexible low pressure hoses
- Multi-layer construction
- Excellent resistance to abrasion
- Kink-resistant design
- Approved for use for use with up to 40% oxygen
- Individually tested at the factory
- EN250 approved
- Individually marked with the Miflex logo and date code
- Manufactured in Italy
- Inner liner is made from polyether-based polyurethane, not PVC, as found in lesser-priced imitators

Miflex DS (Dual Swivel) LP Hoses

Are you tired of feeling like your hose is trying to push your regulator out of your mouth? Get a Miflex DS (Dual Swivel) hose and take comfort and flexibility to a new level.

- The 60º swivel ball joint on the second stage end eliminates the push and pull on the mouthpiece

- The 360º swivel on the first stage end prevents hose twisting and optimizes hose direction

- Increase comfort and reduce jaw fatigue
- Chromed brass construction with Viton O-rings
- Overall length = 28 in (71 cm)
- Approved for use with up to 40% oxygen

miflex hoses

The Miflex XT-Tech Hoses are designed to meet the needs of technical divers. One of the many features of these Kevlar® reinforced hoses, is a smooth exterior finish to prevent abrasion on the back of the neck.

Miflex XT-Tech Hoses

Developed specifically for technical and professional divers, the XT-Tech hoses have a smooth outer layer and reduced flexibility compared to the Xtreme hoses.

- The smooth outer surface prevents abrasion around the neck
- Less flexibility and negative buoyancy allow the longer hoses to stay in place
- Outer polyester layer has Kevlar® yarn reinforcement to make the hose stronger and more durable
- Lighter in weight than traditional rubber hoses
- End fittings are made of sea water resistant electroless nickel plated brass
- Like all Miflex hoses, they are 100% leak tested and produced on fully automated assembly lines
- Inner liner is made from polyether based polyurethane, not PVC, as found in lesser-priced imitators
- Approved for use with up to 40% oxygen

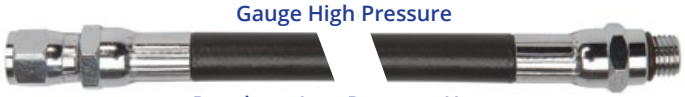
Rubber Hoses - Low & High Pressure

Not all rubber hoses are created equal. Go with the quality difference and choose XS Scuba rubber hoses. Our hoses are designated with our logo on the fitting and a date code so you will know the history of the hose.

Easy Grip Wide Collar For QD Hoses

- Easy attachment and removal
- Flattened side to prevent clearance issues
- Standard schrader valve installed
- Standard collar attachment

Gauge High Pressure



Regulator Low Pressure Hose

BC / Drysuit QD Low Pressure

¼" NPT Bailout Hoses

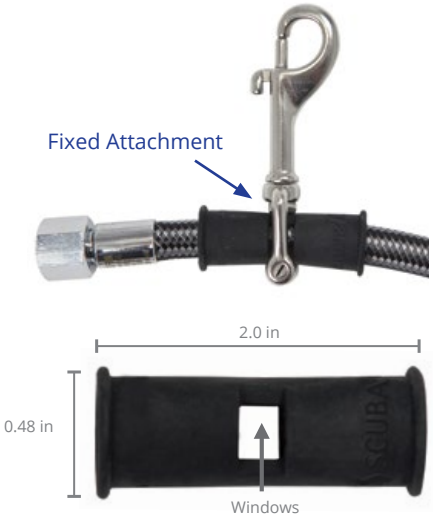
- Used in conjunction with brass or SS couplers to make bailout whips
- Maximum pressure 350 psi
- Fittings laser-etched with date code

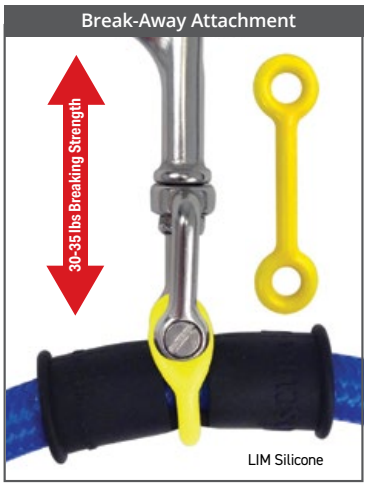
PART #	DESCRIPTION
SH08	8" LP Bailout Hose - 1/4" NPT Male x 9/16"-18 UNF Female (regulator second stage)
SH10	10" LP Bailout Hose - 1/4" NPT Male x 9/16"-18 UNF Female (regulator second stage)
SH30	30" LP Bailout Hose - 1/4" NPT Male x 3/8"-24 Male UNF (regulator first stage)
SH36	36" LP Bailout Hose - 1/4" NPT Male x 3/8"-24 Male UNF (regulator first stage)

Hose Hook

Protect Your Hoses From Premature Failure

- Secure attachment of a clip without causing potential damage to the hose
- Includes 2 break-away straps
- For use with all low pressure scuba hoses with an approximate 0.5 in (13 mm) diameter





Prevent Damage to Low Pressure Hoses

The attachment of a clip or accessory to a scuba hose can cause damage. Often, too much pressure is exerted on the hose surface, damaging the outer and/or inner layers reducing the hose strength. Damage to the inner layer can cause a break-down of material and potential reduced flow of gas. The use of any method other than the Hose Hook for attachment of clips/accessories will void the warranty of all Miflex and XS Scuba hoses.

PART #	DESCRIPTION	RETAIL
AC956	Hose Hook - Includes SS Clip, Silicone Sleeve and 2 Break-Away Straps	20.50
AC956-BA	Break-Away Strap Replacement Kit (includes 5 pieces)	11.50

Hose Clips

- All three models have a 2-way swivel
- Delrin and stainless steel construction

*Standard hose diameter is 0.4 in (11 mm) to 0.5 in (13 mm)

Retains two standard diameter* low or high pressure hoses p/n AC952

Retains three standard diameter* low or high pressure hoses p/n AC953

Retains one Miflex HP braided hose (8 mm) and one standard diameter* low or high pressure hose p/n AC955

PART #	DESCRIPTION	RETAIL
AC952	Two Hose Clip	8.50
AC953	Three Hose Clip	8.50
AC955	Miflex Hose Clip	8.50

Hookah Hoses

Miflex Braided

- Lightweight and flexible
- Resistant to abrasion
- Easy to coil and pack

Yellow Rubber

- High-visibility yellow
- Durable
- Easy-to-clean

HOOKAH SECOND STAGE

See Page 12

PART #	DESCRIPTION	OVERALL LENGTH	COLOR	RETAIL

LP1800YL		1800 in (150 ft)		490.00

⚠ **WARNING:** There is no universal standard for QD connector dimensions on BCDs, breathable inflators, or drysuits. Variations can cause problems: fittings may not connect, may disconnect, may restrict airflow, or may leak. Always confirm compatibility with 3rd-party QD connectors.

When using QD systems, make sure the collar locks fully, pull back on the hose to confirm it's secure, then pressurize to check for proper flow and leaks.

"EZ" QD Connector

- Convert any standard regulator hose to a BC quick disconnect hose
- Also fits drysuit valves that have an international type stem
- Installs on the second stage end of a regulator hose
- Six point attachment with six ball bearings
- "EZ" QD design, just push to attach - no need to pull back the collar
- Wide easy grip collar
- Chromed brass construction with Viton O-rings
- Low pressure use only - below 200 psi

Fits this stem
(not included)

PART #	DESCRIPTION	RETAIL
AC900	EZ Quick-Disconnect Adapter	28.00
AK900	Service Kit for AC900	8.50

"CEJN Style" Drysuit QD Connector

- Convert any standard regulator hose to a "Drysuit Style" QD hose
- Installs to the second stage end of a regulator hose
- Chromed brass construction with Viton O-rings
- Low pressure use only - below 200 psi

Compatible with:
Swedish CEJN couplers as found on many drysuit inflation valves, Zeagle Octo Plus and Beauchat Venturi.

Two Machined Grooves

Fits this stem
(not included)

PART #	DESCRIPTION	RETAIL
AC920	"Drysuit Style" Quick-Disconnect Adapter	35.00
AK920	Service Kit for AC920	8.50

"Aqualung/SeaQuest Style" QD Connector

- Convert any standard regulator hose to a "Aqualung/SeaQuest Style" QD hose
- Installs to the second stage end of a regulator hose
- Chromed brass construction with Viton O-rings
- Low pressure use only - below 200 psi

Compatible with:
Aqualung/SeaQuest Air Source, Oceanic Air XS 2, US Divers Air Mic and Mares Air Control.

Three Machined Grooves

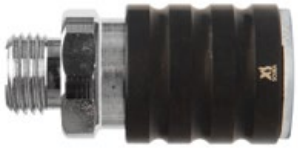
Fits this stem
(not included)

PART #	DESCRIPTION	RETAIL
AC925	"Aqualung/SeaQuest" Quick-Disconnect Adapter	35.00
AK925	Service Kit for AC925	8.50

"ScubaPro Style" QD Connector

- Convert any standard regulator hose to a "ScubaPro Style" QD hose
- Installs to the second stage end of a regulator hose
- Chromed brass construction with Viton O-rings
- Low pressure use only - below 200 psi

Compatible with:
ScubaPro Air 2, Tusa Duo Air, Atomic SS1, Sherwood Gemini and Zeagle Octo-Z.



Fits this stem
(not included)

PART #	DESCRIPTION	RETAIL
AC930	"ScubaPro Style" Quick-Disconnect Adapter	35.00
AK930	Service Kit for AC930	8.50

"MultiMax" QD Connector

- Convert any standard regulator hose to a MultiMax breathable inflator QD hose
- Installs to the second stage end of a regulator hose
- Compact size with a brass release sleeve
- Low pressure use only - below 200 psi

Fits this stem
(not included)

PART #	DESCRIPTION	RETAIL
RP370-44	"MultiMax" QD Connector	37.00
RP370-45	Service Kit for Multimax QD Connector	4.00

Hose Adapters

LP Angle Adapters

- Installs between low pressure regulator hose and second stage
- Increase comfort and reduce jaw fatigue
- Used to improve regulator hose routing
- Often used to set up underarm routing of primary regulator hose
- Chromed brass construction with Viton O-rings
- Low pressure use only – below 200 psi

AC910

AC911

PART #	DESCRIPTION	RETAIL
AC910	90º Right Angle Adapter	43.00
AC911	110º Angle Adapter	43.00

Second Stage Swivel Adapters

- Install between low pressure regulator hose and second stage
- Reduce hose torque on the second stage leading to increased comfort and reduced jaw fatigue and clenching
- Rotating swivel action
- Assembled with Viton O-rings
- Low pressure use only – below 200 psi

AC912

AC921

AC922

PART #	DESCRIPTION	MATERIAL	RETAIL
AC912	Swivel Adapter	Brass	55.00
AC921	Swivel Adapter	Stainless	88.00
AC922	Right Angle Adapter With Swivel	Brass	60.00
AK912	Service Kit For AC912, AC921, AC922		8.50

First Stage Quick Disconnect

- Quick and convenient way to change hose lengths between dives
- Installs between 1st stage and LP regulator hose
- Lock-down screw to prevent accidental disconnection
- Flow rate = 800 lpm
- Low-pressure use only – below 200 psi

First Stage Quick Disconnect – Male Only

- Install on multiple LP regulator hoses for quick swaps

PART #	DESCRIPTION	RETAIL
AC998	First Stage Quick Disconnect - Complete	80.00
AC999	First Stage Quick Disconnect - Male Only	21.00

Brass 2nd Stage Quick Disconnect

- Add a quick-disconnect to most regulators or full face masks
- Installs between low pressure regulator hose and second stage
- Lock-down screw to prevent accidental disconnection
- Low pressure use only - below 200 psi

Brass 2nd Stage QD - Male Only

- Install on multiple second stage regulators for quick swaps

PART #	DESCRIPTION	RETAIL
AC990	Brass 2nd Stage Quick Disconnect - Complete	68.00
AC991	Brass 2nd Stage QD - Male Only	21.00
AK990	Service Kit for AC990	8.50

Stainless 2nd Stage Quick Disconnect

- Add a quick-disconnect to most regulators or full face mask
- Installs between low pressure regulator hose and second stage
- "Click & Lock" to prevent accidental disconnection
- All stainless steel construction with Viton O-rings
- Low pressure use only - below 200 psi

Stainless 2nd Stage QD - Male Only

- Install on multiple second stage regulators for quick swaps

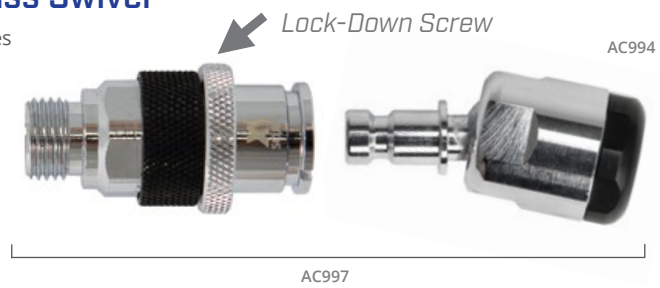
PART #	DESCRIPTION	RETAIL
AC992	Stainless Steel 2nd Stage Quick Disconnect - Complete	119.00
AC995	Stainless Steel 2nd Stage Quick Disconnect - Male Only	47.00
AK992	Service Kit for AC992	8.50

Brass 2nd Stage Quick Disconnect with Brass Swivel

- Using the same brass coupler as the AC990 above, this product provides the additional benefit of adding a brass swivel to the male portion
- Installs between LP hose and 2nd stage, or full face mask
- The rotating swivel action reduces torque on the 2nd stage, leading to increased comfort
- Low pressure use only – below 200 psi

Brass 2nd Stage QD w/ Swivel Male Only

- Install on multiple 2nd stage regulators or full face masks



PART #	DESCRIPTION	RETAIL
AC997	Brass 2nd Stage Quick Disconnect with Brass Swivel - Complete	119.00
AC994	Brass 2nd Stage Quick Disconnect with Swivel - Male Only	65.00
AK997	Service Kit for AC997	8.50

Assorted LP Adapters and Extenders

- Brass construction with black chrome finish
- Viton O-rings (where applicable)
- Low pressure use only – below 200 psi

AC940

LP Port Adapter

- 1/2"-20 male to 3/8"-24 female
- Allows the connection of a standard LP regulator hose (3/8"-24) into a large size regulator LP port (1/2"-20)
- (3/8"-24) into a large size regulator LP port (1/2"-20)

AC919

LP Hose Adapter

- 9/16"-18 male to 3/8"-24 male
- Convert a standard LP regulator hose so that both ends have 3/8" male threads

AC960

Hose to Hose Connector

- 3/8"-24 female to 9/16"-18 male
- Connect two regulator hoses together to make one long regulator hose

AC970

LP Port Extender

- 3/8"-24 female to 3/8"-24 male
- Extend the placement of the LP port away from the first stage

PART #	DESCRIPTION	RETAIL
AC940	LP Port Adapter 1/2"-20 Male to 3/8"-24 Female	16.00
AC919	LP Hose Adapter 9/16"-18 Male to 3/8"-24 Male	16.00
AC960	Hose to Hose Connector 3/8"-24 Female to 9/16"-18 Male	16.00
AC970	LP Port Extender 3/8"-24 Female to 3/8"-24 Male	16.00

LP Dual-Port Swivel Adapter

This clever adapter allows you to increase the number of hoses coming off your first stage as well as reroute them to the optimal direction.

- 3/8"-24 male inlet to 2 each 3/8"-24 female outlets
- Outlets swivel independently of each other
- Chrome over brass construction with Viton O-rings
- Low pressure only - below 200 psi

PART #	DESCRIPTION	RETAIL
AC904	LP Dual-Port Swivel	62.00

Inline First Stage Hose Swivel

Most regulator hoses have a natural curve to them. When the hose curves back, away from the diver, it can be annoying. This handy little swivel will allow the natural curve of your hose to sweep forward, over your right shoulder. It also makes the scuba removal and replacement drill much easier to execute as it eliminates hose twisting.

- Chromed brass construction with Viton O-rings

One Port
Inline

PART #	DESCRIPTION	RETAIL
AC903	(1) 3/8"-24 Male Inlet to (1) 3/8"-24 Female Outlet	22.00

LP Port Swivel Adapters

- Reroute, or increase, the number of low pressure hoses coming off your first stage
- Chromed brass construction with Viton O-rings
- Low pressure only – below 200 psi

One Port
90 degree

AC901

Two Ports

AC902

AC901	(1) 3/8"-24 Male Inlet to (1) 3/8"-24 Female Outlet	41.00
AC902	(1) 3/8"-24 Male Inlet to (2) 3/8"-24 Female Outlets	41.00
AC913	(1) 3/8"-24 Male Inlet to (3) 3/8"-24 Female Outlets	41.00
AK901	Service Kit for AC901, AC902 & AC913	8.00

LP Hose Splitter

- Attach to the second stage end of one low pressure regulator hose
- Allows the attachment of two low pressure regulator hoses (first stage ends)
- One 9/16"-18 male inlet to two 3/8"-24 female outlets
- Chromed brass construction with Viton O-ring
- Low pressure only - below 200 psi

PART #	DESCRIPTION	RETAIL
AC918	LP Hose Splitter	42.00

HP Port Adapters

- Reroute, or increase, the number of high pressure hoses coming off your first stage
- Chromed brass construction with Viton O-rings
- High pressure only – maximum 5000 psi
- Cleaned for use with up to 40% pre-blended Nitrox

AC906

HP Splitter

- (1) 7/16"-20 male inlet to (2) 7/16"-20 female outlets
- Use this to add an additional high pressure port to your regulator's first stage

AC907

HP Swivel

- (1) 7/16"-20 male inlet to (1) 7/16"-20 female outlet
- Use this to route your HP hose 90°

AC908

HP Extender

- (1) 7/16"-20 male inlet to (1) 7/16"-20 female Outlet
- The extender is useful if there is not enough room on the regulator's first stage for your computer transmitter

PART #	DESCRIPTION	RETAIL
AC906	HP Splitter - (1) 7/16"-20 Male Inlet to (2) 7/16"-20 Female Outlets	80.00
AC907	HP Swivel - (1) 7/16"-20 Male Inlet to (1) 7/16"-20 Female Outlet	43.00
AC908	HP Extender - (1) 7/16"-20 Male Inlet to (1) 7/16"-20 Female Outlet	23.00
AK906	Service Kit for AC906	8.00
AK907	Service Kit for AC907	8.00

¼" NPT Adapters

- Converting your regulator / hoses to ¼" NPT has many practical applications in diving as well as your garage or shop
- Used with surface supplied umbilicals, switch blocks, comm gear and pneumatic tools
- Viton O-rings where applicable
- Models made of brass are for low pressure only - below 200 psi

AC905

AC915

AC916

AC917

AC923

PART #	DESCRIPTION	MATERIAL	RETAIL
AC905	¼" NPT Male to 9/16"-18 Male	Stainless	32.00

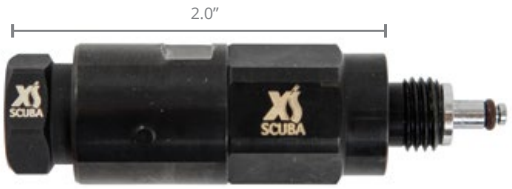
AC916	¼" NPT Male to 3/8"-24 UNF Male	Brass	13.50
AC917	¼" NPT Male to 3/8"-24 UNF Female	Brass	13.50
AC923	¼" NPT Female to 3/8"-24 UNF Male	Brass	13.50

HP Hose QD Adapter

- Add to any pressure gauge, console or air integrated console which uses a standard high pressure hose
- Remove your gauges for safe storage
- Bayonet mount style quick-connect (push in and turn)
- Gauge attachment end has 7/16"-20 female threads
- Hose attachment end has 7/16"-20 male threads
- Airspool with Viton O-rings included
- Brass construction with black chrome finish
- Cleaned for use with up to 40% pre-blended Nitrox
- Max. operating pressure of 3500 psi (240 bar)



PART #	DESCRIPTION	RETAIL
AC383	High Pressure Hose Quick-Disconnect Adapter	104.00
AC384	High Pressure Hose Quick-Disconnect Adapter - Male Only	42.00
AK383	Service Kit for AC383	14.00

Easy Gripper

- Make your QD coupler easier to operate
- Helps when wearing thick gloves
- Wide, easy to grip collar
- Flat side to prevent clearance issues
- Fits over most standard quick-disconnect hose ends
- Not for use on XS Scuba's Easy Grip Wide Collar QD Hoses

PART #	DESCRIPTION	RETAIL
AC155	Easy Hose Gripper	4.00

Poseidon Hose Adapter

- Convert a Poseidon X-Stream, or Jetstream, 2nd stage to accept a std. regulator hose
- Fits any Poseidon second stage with M31-1.5 mm inlet threads
- Brass construction with black chrome finish
- To use this adapter with Poseidon Jetstream 2nd stage regulators manufactured prior to 2008, you MUST add a first stage regulator OPV, such as AC395 or AC396

PART #	DESCRIPTION	RETAIL
AC980	Poseidon Hose Adapter	42.00

AGA 90° Hose Adapter

The AGA 90° Hose Adapter allows you to add a standard regulator hose to your AGA Divator Full Face Mask.

- Installs between standard regulator hose and the AGA Divator
- Chrome over brass construction with Viton O-rings
- 9/16"-18 male fitting to AGA M16-1.0 female fitting

PART #	DESCRIPTION	RETAIL
AC985	AGA 90° Hose Adapter	52.00

2nd Stage Plug Set

- Protect the end of your second stage and hose when the second stage is disconnected from the hose
- Includes both male and female plugs
- Machined Delrin construction
- Not to be used under pressure

PART #	DESCRIPTION	RETAIL
AC914	2nd Stage Plug Set	16.50

Faber

Steel Cylinders

- 3442 psi (237 bar) working pressure
- Phosphatized-cleaned interior
- DOT SP13488 and TC SU7694-237
- O2 cleaned for use with up to 40% pre-blended Nitrox
- Includes self-draining tank boot with round rim
- Inlet thread is standard ¾"-14 NPSM

HYDRO DATES ON NEW FABER STEEL CYLINDERS

We ship cylinders with the "freshest" possible hydro date. We are limited in some models because of high manufacturing quantities and relatively low sales volume. Please understand, that steel cylinders shipped to your location within 18 months from date of manufacture are considered "current hydro" and not subject to further discounts.

OXYGEN USE WITH FABER STEEL CYLINDERS

Faber steel cylinders are cleaned at the factory for oxygen-enriched service up to 40% pre-blended Nitrox. If you intend to use this cylinder for oxygen-enriched service, it is the responsibility of the cylinder user to insure that the cylinder and all components are maintained in a proper state of oxygen cleanliness in strict accordance with regulatory requirements and industry standards.

Faber Twin Steel Cylinders Sets

Twin sets come complete with your choice of isolation manifold, stainless steel bands with hardware, and self-draining tank boots.

Faber Steel Cylinders

- 5 HP models available: 80, 100, 120, 117 or 133
- Gun Metal Gray finish or Hot Dip Galvanized
- DOT & TC approved
- Includes self-draining tank boots

Isolation Manifold

- Choose dedicated DIN outlets or PRO outlets with spin-out DIN inserts

Highland Steel Bands

- 304 stainless with all hardware included
- All bands are 2.5" wide

Gun Metal Gray

Gun Metal Gray

This triple-protected finish provides long-lasting durability. The process includes a zinc galvanizing spray, followed by an epoxy paint and then a top coat of polyurethane. The result is a beautiful cosmetic finish.

OXYGEN USE

Thunderbird cylinders are cleaned for oxygen and oxygen-enriched service at the factory. If you intend to use this cylinder of for oxygen or oxygen-enriched service (ie. with any gas containing oxygen concentrations of 23.5% or more), all components used with the cylinder must be oxygen compatible. It the responsibility of the cylinder user to ensure that the cylinder and all components are maintained in a proper state of oxygen cleanliness in strict accordance with regulatory requirements and industry standards.

HYDRO DATES ON NEW ALUMINUM CYLINDERS

We ship cylinders with the "freshest" possible hydro date. We are limited in some models/colors because of high manufacturing quantities and relatively low sales volume. Please understand that aluminum cylinders shipped to your location within 12 months of manufacture date are considered "current hydro" and not subject to discounts.

As you prepare to descend on your next challenging adventure, the last thing you want to have to think about are your cylinder valves. That is why technical and extreme divers around the globe rely on Thermo and XS Scuba branded valves and manifolds, the two names in valves that are synonymous with quality.

Don't compromise. Dive with the best there is!

What's In Your Cylinder?

Because Your Valve Makes The Difference!

Go with the most trusted, best-selling valves in the industry.

FEATURES OF XS SCUBA AND THERMO VALVES	XS Scuba	Thermo
One-piece safety assembly protected within the valve body	●	●
Dip tube tightens with hex wrench to avoid damage from pliers	●	●
Three outlets available: Deluxe K, PRO & DIN	●	●
High-pressure seat retainer is PTFE coated for smooth operation	●	●
100% factory tested, in water, to full working pressure	●	●
Meets the requirements of CGA V9-2009	●	●
Valve bonnet sealed with copper crush washer		●
Valve bonnet sealed with an O-ring	●	
Safety handwheel - See at a glance whether the valve is open	●	
Fully on to fully off with 1.5 turns of the handwheel	●

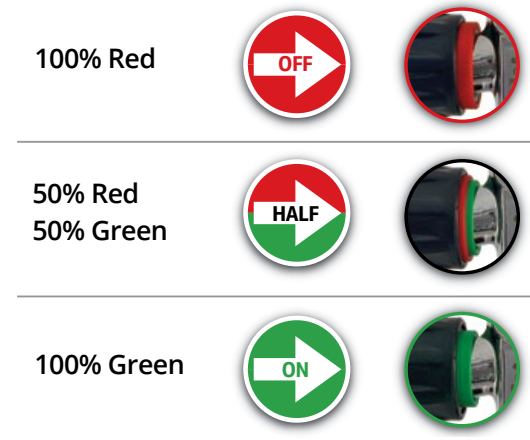
XS SCUBA SAFETY HANDWHEEL



Legend: The valve products on the following pages are designated as AIR ONLY or 40% MAX OXYGEN PREMIXED

AIR ONLY =

***** WARNING*** COMPRESSED AIR ONLY**

Never use this product with any gas in which the concentration of oxygen exceeds 21%. Failure to follow this warning may result in fire, explosion, injury and/or death.

40% MAX OXYGEN PREMIXED =

***** WARNING*** MAXIMUM 40% OXYGEN PREMIXED**

Never use this product with any gas in which the concentration of oxygen exceeds 40%. Failure to follow this warning may result in fire, explosion, injury and/or death.

XS SCUBA Deluxe K Valve

- Standard yoke outlet
- 3/4"-14 NPSM standard inlet threads
- Air service only
- 1.5 handwheel rotations from fully on to fully off

XS SCUBA Isolation PRO Manifold

- PRO outlet, with spin-out insert, allows for DIN or yoke connection
- XS Scuba Safety Handwheel - know at a glance that your valve is 100% open
- 1.5 rotations of the handwheel from fully on to fully off
- Center-to-center distance: 215 mm (8.46 in) +/- 5 mm (0.2 in)
- 3/4"-14 NPSM standard inlet threads
- On/Off seat built from high strength brass with nylon seat and PTFE plated for years of smooth operation
- One-piece safety assembly protected within the body of the valve
- O-ring sealed bonnet
- Modular access plugs (R/L) included for use as single valves
- Screw-in dip tube with hex wrench tighten feature
- Meets the requirements of CGA V9-2009 standards

THERMO DIN Valve

The Thermo DIN valve is for those divers who use a dedicated 300 bar regulator on all their dives. This is the valve for those who go all DIN all the time.

- Dedicated 300 bar DIN outlet
- Attachment of DIN first stages only
- 3/4"-14 NPSM standard inlet threads
- Air service only

AIR ONLY

PART #	PRIMARILY USED FOR	SERVICE PRESSURE	RETAIL

THERMO Dual Outlet H Valves

How to Build an H Valve

- Purchase a Thermo or XS Scuba modular valve
- Purchase a Thermo H adapter
- A right hand modular valve needs to be paired with a right hand H adapter and a left with a left
- The PRO/DIN outlets can be matched or mixed
- The modular access plug needs to be removed
- Note that the modular access plug and H adapter have reverse threads in the right hand version
- This photo is an example of a Thermo DIN outlet Left Hand Modular Valve (p/n VA300L-30N) paired with a Thermo PRO outlet Left Hand H Adapter (p/n VH200L-N)

THERMO PRO H Adapter

- Standard yoke outlet with spin-out DIN insert converts to 230 bar DIN outlet
- Attaches to all Thermo Modular valves
- Attaches to all XS Scuba Modular valves
- Right hand H adapter attaches to right hand modular valve
- Left hand H adapter attaches to left hand modular valve
- Clean for pre-blended Nitrox up to 40% oxygen

PART #	DESCRIPTION	ORIENTATION	RETAIL
VH200L-N	Thermo PRO H Adapter	Left	98.00
VH200R-N		Right	98.00

THERMO Thermo J Valve

This is the same J-Reserve Valve that the military uses.

- The reserve is 600 +/- 100 psi
- Tough-as-nails, black PVD finish
- PRO Outlet - Remove the spin-out insert to convert from yoke to 230 bar DIN
- 3/4"-14 NPSM standard inlet threads
- Clean for pre-blended nitrox up to 40% O2
- Activation pull rod sold separately, p/n AC200

Down For Fill

Reserve Lever On Inboard Side

PART #	DESCRIPTION	RETAIL
VA2J-33N	Thermo J Valve	455.00
VKT-J-MAIN	Service Kit - J Valve, Main Side	24.00
VKP-J	Service Kit - J Reserve Assembly	44.00

THERMO Thermo One-Piece Twin Manifold

This is the same one-piece twin manifold that the military uses.

- 8.46 in / 215 mm center-to-center distance
- Tough-as-nails, black PVD finish
- PRO Outlet - Remove the spin-out insert to convert from yoke to 230 bar DIN
- Optional J-Reserve ready
- 3/4"-14 NPSM standard inlet threads
- Clean for pre-blended nitrox up to 40% O2
- Activation pull rod sold separately, p/n AC200

Optional Reserve "J" Valve

- Reserve activates at 600 psi +/- 100 psi
- Set lever up to hold reserve air
- Pull lever down to release reserve air
- Reserve lever operation is inboard between the diver and left side cylinder
- Optional pull rod available - sold separately

Up For Reserve

Stainless Steel DIN Plug

- Precision machined from 304 stainless steel
- Protects threads of 200 and 300 bar DIN threads
- Prevents gas loss from accidental turn on
- Includes Viton O-ring

PART #	DESCRIPTION	RETAIL
HL402	Stainless Steel DIN Plug	24.00

Brass DIN Plug with Pressure Release

- Machined from marine brass
- In case the valve is accidentally turned on, the push button vent allows trapped gas to escape for easy plug removal

PART #	DESCRIPTION	RETAIL
HL422	Brass DIN Plug with Pressure Release	43.00
HK422	Service Kit for the HL422 DIN Plug	9.00

Plastic DIN Plug

- The economical way to protect your DIN valve threads and keep contaminants out
- Includes a safety relief plug in case gas is accidentally turned on while plug is installed
- Comes with cord attached

PART #	DESCRIPTION	RETAIL
AC210	DIN Plug with Attached Cord	6.00

DIN Fill Adapter

- Adapt DIN valves for filling with a standard yoke filler
- Fits all 200 and 300 bar DIN valves
- Rotating DIN handwheel
- Standard inlet and outlet O-rings (p/n VP15-V)
- Viton O-rings

ABOVE WATER USE ONLY
This adapter is designed to allow the filling of cylinders with 200 and 300 bar DIN valves from standard yoke fillers.
3442 PSI MAXIMUM

PART #	DESCRIPTION	RETAIL
AC375	DIN Filler Adapter	58.00

Scuba Tank Holder

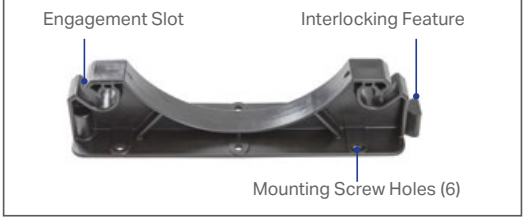
Consists of a rugged, double slotted base with a removable, silicone band and stainless steel hook. The holder is designed to secure 7.25 in (184 mm) diameter scuba tanks. It can also fit 6.9 in (175 mm) and 8.0 in (203 mm) tanks, though the fit will not be as optimal.

- The silicone band can be mounted on either the left or the right side of the base so that you can pull it over your tank in either direction
- The bases are interlocking so you can connect as many together as needed
- Each base can be mounted directly to any hard surface using the six stainless steel screws (included) or using an optional aluminum rail

Easy and secure attachment

Interlocking design - Link together

Multi-feature base design

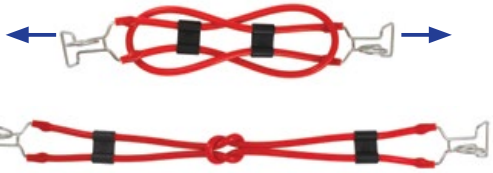


PART #	DESCRIPTION	RETAIL
TR120	Scuba Tank Holder	40.00

Extender/Replacement Band

Identical to the band assembly found in the TR120 above. It can be used as a replacement or an extender. Extenders are useful when a longer band is needed, such as to wrap around a cylinder with a BC on it. Add the Extender to the original band using one of the two methods shown below. Extenders are also easy to cut-to-size for custom applications.

or



Secure a tank with BC attached

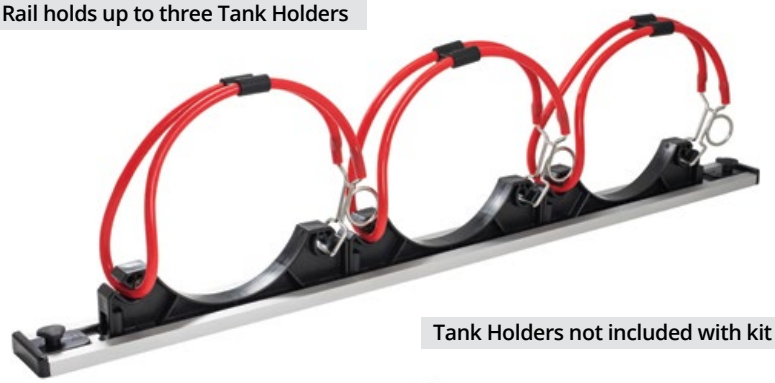
PART #	DESCRIPTION	RETAIL
TR160	Extender/Replacement Band	28.00

Tank Rail

Aluminum Rails provide the best mounting option. By mounting to an aluminum rail, the tank holders can be easily slid in or out. The rail is 3-feet long, and can hold 3 tank holders.

- Each rail includes two end stoppers with thumb screws and stainless steel mounting screws
- Rails have a clear anodized coating to resist corrosion

Rail holds up to three Tank Holders



Tank Holders not included with kit

3 ft Rail (p/n TR200)

PART #	DESCRIPTION	RETAIL
TR200	Tank Rail Kit 3 ft (Holds 3 Tanks)	45.00

Deluxe Tank Carrier with Shoulder Strap

- Fits 6.9 to 8.0 in (175 to 203 mm) diameter cylinders
- Hook-and-loop tank band straps with 2 in (50 mm) D-rings
- Rubber molded, side carry handle
- Removable, adjustable padded shoulder strap included

PART #	DESCRIPTION	RETAIL
AC240	Deluxe Tank Carrier	42.00

Steel Cylinder Carry Handle

- Carry steel tanks with ease and comfort
- Tough, injection-molded handle
- Folds down when not in use

HIGHLAND ENGINEERED QUALITY Twin Cylinder Bands

- Precision manufactured to the exact specifications of Joe McGrath's original Highland Millwork bands
- Deburred and polished edges to protect your cylinder paint/finish
- 18 gauge (.048 in) 304 grade stainless steel
- Band width is 2.5 in (64 mm)
- Polished fusion welds
- Polished #4 stainless steel finish
- The only choice of experienced technical divers
- Final finish completed by hand

INSTALLATION WARNING

If care is not taken during installation, you can gall (weld) a stainless steel nut onto a stainless steel bolt. You will then have to cut the bolt to remove it and replace the parts.

Below are instructions to help prevent galling during installation:

1. Clean the Bolts and Nuts
Start by cleaning the threads of bolts and nuts under warm running water. Scrub the threads with a toothbrush and mild detergent to break free any debris.

2. Use a Lubricant
You need to prevent the build up of heat when installing the nut to the bolt. Use a petroleum-based lubricant, like 3-In-One Oil on the threads. Apply the lubricant to the bolt threads ahead of the nut. Reapply more lubricant as needed.

3. Go Slow
Again, you need to prevent the build up of heat. Take your time. Slowly, thread the nut one full turn, then come back an 1/8 of a turn, wait and do it again. Spending an extra five minutes installing the nuts on to the bolts can prevent hours of headache hacksawing the bolts off and the expense of replacing the hardware.

REPLACEMENT BOLT KITS ARE NOT COVERED UNDER WARRANTY

Bolt Kit Specifications

BK725
2 pieces 3/8-16 x 5" hex head cap screws fully threaded 18-8 SS
2 pieces 3/8-16 wing nuts 18-8 SS

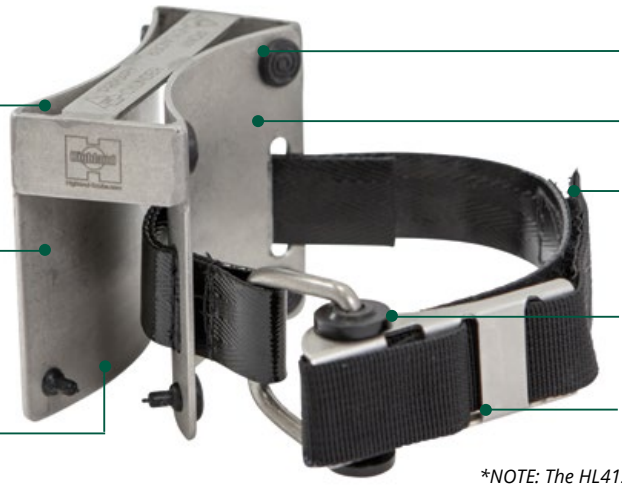
HIGHLAND ENGINEERED QUALITY Pony Mount

The band can be rotated in the bracket so that the buckle may be positioned on the left or right side

Designed for 7.25 in (184 mm) diameter primary cylinder

HL409 - Designed for 4.4 in (112 mm) diameter pony cylinders Aluminum 8, 13, & 19 cu ft

HL412 - Designed for 3.2 in (81 mm) diameter pony cylinders Aluminum 6 cu ft



Rubber bumpers to protect paint

316 grade stainless steel construction

Adjustable length nylon webbing

Roller wheels make it easier to cam over the buckle and provide protection to the cylinder paint

Stainless steel cam buckle

**NOTE: The HL412 does not have the option of rotating the band in the bracket. The buckle is in a fixed position.*

Easy Mounting of the Pony Cylinder

- Mount on the diver's right or left side
- Mount upright or upside-down
- Secure and stable attachment
- Easy attachment with stainless steel cam buckle
- No hose clamps

Easy Attachment to the Primary Cylinder

- Uses your BC cam strap for attachment
- Designed for 7.25 in (184 mm) diameter primary cylinders
- Rubber bumpers to protect your cylinder's paint and finish

Voyager 60 *Roller Duffel*

Don't be fooled by the good looks! The Voyager 60 is, above all else, a dive bag. Divers don't just roll on slick airport floors, we walk on docks, climb over rocks, roll through dirt. We subject our bags to salt and sand. This is exactly why you want the Voyager 60. The all-terrain wheels, coupled with backpack straps and five handles, gets your bag to your dive destination with ease. The Voyager 60 will not rust and can be hosed out after each outing.

- Clever, double-duty external cinch straps
  - Travel with peace of mind knowing that external cinch straps ensure your bag won't bust open, no matter how rough the luggage handlers get
  - External cinch straps unclip, get repositioned, and become backpack straps
- All-terrain wheels take on all kinds of surfaces and can even be replaced
- Internal fin straps keep fins straight, along the bag's sidewalls
- A large, secondary compartment keeps clothes and towels separate from your dive gear
- An accessory pocket is handy for parts, tools and small items
- Weighs 8.7 lbs (3.9 kg)

Dimensions
29 x 16 x 13 in
74 x 41 x 33 cm

Internal compression straps keep items secure

The external security straps double as the backpack straps!

BG180	Voyager 60 Roller Duffel	278.00

B3 Bomber *Roller Duffel*

*It's a **B**ig **B**lack **B**ag. It's the **B3 Bomber**!*

We realize that not everyone wants a fancy dive bag for exotic dive travel. Sometimes, you just want to get your gear across the parking lot. The B3 Bomber is an economy roller duffel that is up to the task.

- Large main compartment with 2 internal compression straps
- 2 large, external accessory pockets
- No inner liner for easy cleaning. Just hose it out
- Not logo'd up to draw attention to expensive scuba equipment inside
- Made from strong 1200D Magnum Coat fabric
- The trolley handle assembly is easily replaceable as it uses SS screws instead of rivets
- Weighs only 7.6 lbs (3.5 kg)!
- Main compartment capacity: 6032 cu in

Dimensions
29 x 16 x 13 in
74 x 41 x 33 cm

Coastal CD

Add convenience and versatility to your next dive trip with a Coastal CD. In it's collapsed form, it is a padded regulator bag, ideal for bringing your regulator and computer on the plane as a personal item, thereby reducing the weight of your checked bag. When you arrive at your destination, it expands into a mesh duffel, large enough to hold the remainder of your gear.

- Large enough to carry a complete set of scuba equipment
- Robust zippers are non-metallic and corrosion free
- The tough poly mesh, which allows the bag to ventilate and drain, is fade and snag resistant
- Mesh duffels are perfect for rinsing and drying your gear

Dimensions Opened
12 x 12 x 31 in
(30.5 x 30.5 x 78.7 cm)

HIGHLAND ENGINEERED QUALITY DARK WATER

Head to where the adventure is. Head to the Dark Water.
This Highland frameless mask features pure, ultra-clear glass, which eliminates the green tint found in normal mask glass. The buckles attach to the mask skirt, allowing the mask to fold into a flat package, making this an ideal spare mask to carry on your harness.

- Features pure, ultra-clear glass, which eliminates the green tint found in ordinary mask glass
- The buckles attach to the mask skirt, allowing the mask to fold into a flat package, making this an ideal back-up mask to stow in the Squall Pocket (p/n HL230)
- The split strap on the back prevents strap migration on the back of the head

MAH405BS	Black Silicone	Outer Limits Mask	110.00

HIGHLAND ENGINEERED QUALITY SQUALL POCKET

The Squall Pocket is perfect for carrying your backup mask. The semi-rigid sides allow the mask to slide right in. An over-sized clip on the front is no match for 5 mm or dry gloves. The Squall is so versatile, it can also carry many types of technical accessories, such as spools, wet notes, and SMBs.

- Made from rugged 1680D nylon
- Tri-fold web loops clamp on to 2 in (50 mm) harness webbing
- A 1 in (25 mm) SS D-ring provides an alternate clip-on option
- Features an over-sized 2 in (50 mm) side-release buckle for easy operation with gloves

Internal Dimensions:
6.25 x 2 x 4 in
(15.9 x 5.1 x 10.2 cm)

(17.8 x 6.4 x 12.7 cm)

PART #	DESCRIPTION	RETAIL
HL230	Squall Pocket	45.00

ETHOS *FREEDIVING MASK*

Ethos is an innovative and revolutionary frameless mask designed for freediving and spearfishing. The Ethos features Ocular Orbit technology resulting in one of the lowest volume masks available with an incredible internal volume of approximately 79 cm^3.

- Internal orbital eye cups positioned on the diver's face, keep the two lenses aligned on the same plane, which prevents visual distortion and allows for an extremely low volume mask
- An internal channel on each eye cup allows for equalization of the eye cups
- The mask skirt is engineered with specialized adaptive flex zones that allow it to effortlessly stretch and contract in both length and width. This dynamic flexibility ensures an adaptive fit that molds to the contours of various face shapes and sizes
- Matte finish on the black silicone skirt exterior provides anti-reflective properties that provide additional stealth when hunting
- Ethos is foldable, making it an ideal back up mask for all divers stowing easily away

PART #	COLOR	DESCRIPTION	RETAIL
MA530BS	Black Silicone	Ethos Mask	83.00

Merge 3 *Frameless*

Frameless masks continue to surge in sales and popularity because they are lighter weight and so streamlined. Eliminating the mask frame allows the front lens to move closer to the face providing an excellent peripheral view. The Merge 3's popularity is due to its ability to fit so many faces.

- The buckles swivel for optimal fit and comfort
- The wide strap is comfortable and stays put on the back of the head
- Direct bonding of silicone to the tempered glass, thereby eliminating an external frame
- Made of hypoallergenic silicone for comfort and longevity
- The blue model is clear silicone with blue buckle plates
- Includes mask storage box

PART #	COLOR	DESCRIPTION	RETAIL
MA415BS	Black Silicone	Merge 3 Mask	73.00
MA415BU	Blue	Merge 3 Mask	73.00

Crew *Frameless*

Frameless masks are made from the direct bonding of the silicone mask skirt to the tempered glass. By eliminating the thick plastic frame, the frameless masks are lighter, lower in volume, and more streamlined. As a class, they enjoy more popularity than ever before.

- Large single window for unobstructed view
- Easy-to-adjust ratcheting buckles
- Double, feather-edged sealing skirt
- Made of hypoallergenic silicone for comfort and longevity
- Includes mask storage box

PART #	COLOR	DESCRIPTION	RETAIL
MA405BS	Black Silicone	Crew Mask	82.00

Stalker

The Stalker masks are a favorite among freedivers and spearos. This two lens mask is available in a stealthy all-black silicone.

- The all-black model features a unique lens coating which keeps fish from seeing the diver's eyes
- The matte finish of the silicone skirt prevents light reflection
- Stealth look blends into the environment
- The low volume prolongs the need for equalization and allows easy clearing
- The buckles are positioned directly on the skirt which minimizes weight and drag
- Includes mask storage box

PART #	COLOR	DESCRIPTION	RETAIL
MA500BS	Black Silicone	Stalker Mask	82.00

Stalker Camo

The Stalker mask was introduced a few years ago and quickly gained popularity among freedivers and spearos. To provide more options to your spearo customers, we now offer three camouflage versions. Available in black camo, green camo and blue camo using the latest water transfer technology on the silicone mask skirts.

PART #	COLOR	DESCRIPTION	RETAIL

Diamond

Named for the tactile cross-cut accents on the upper corners of the frame, the Diamond Mask proves you don't have to spend a small fortune to get an exceptional mask.

- Advanced, "3D Fit" mask skirt provides the ultimate seal while preventing annoying mask "ride-up"
- Drop point lenses provide excellent downward visibility
- Rotating, quick-connect buckles provide optimal head strap angle
- Counter-posed buttons allow easy loosening of the strap, even with gloves

Unique cross-cut accents on the frames give the Diamond Mask its name.

SEADIVE

Acquired by XS Scuba in 2016, the SeaDive brand is best known for its diving masks with proprietary, vision-enhanced lenses. Under the trade names RayBlocker®, TrueColor™, and Hydrophobic™, these masks reduce glare, block harmful UV rays and increase depth perception. Due to their growing popularity, many companies are trying to imitate, but none have been successful in achieving the benefits of these unique and exclusive lens coatings.

SEADIVE *RayBlocker®-HD*

RayBlocker®-HD coatings perform well in all daytime applications. They are exceptional on sunny days because they are so effective at reducing UV rays and glare.

Light passing through the lens is refined by Sharper Image Technology, which provides enhanced edge definition, making subjects appear as if they are in high-definition.

The inside coating is a blue tint that reduces eye strain and prevents squinting.

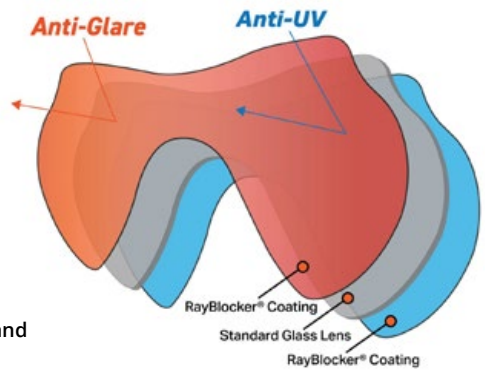

Photo by: Zoe Anderson @zoedajoey

Eagleye - RayBlocker®-HD

- Our most popular RayBlocker® model!
- Easy-adjust buckles are attached directly to the mask skirt for a better, more comfortable seal (non-purge model)
- The single lens provides an unobstructed field of view
- Also available with purge valve
- Fog resistant coating
- Plastic box with lid included

Available With 14 mm Diameter Purge Valve
**Black Mask Only*

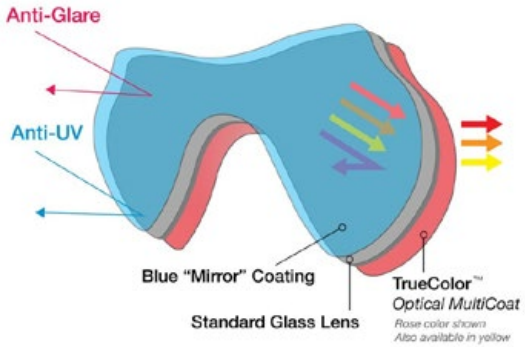
TrueColor™-HD

The TrueColor™ coatings are effective in compensating for reduced light and reduced colors as found underwater.

The TrueColor™ with yellow tint on the inside, provides the best performance in lower light conditions such as early mornings, late afternoons or deeper depths. It makes everything seem brighter underwater and provides increased contrast.

The TrueColor™ with rose tint on the inside, filters out unwanted blue light, thereby making the warm colors of the reef (reds, oranges & yellows) more pronounced and vibrant.

Both models have a blue mirror coating on the outside, which reduces harmful UV rays and glare.



Eagleye - TrueColor™-HD

- The single lens provides an unobstructed field of view
- Easy-adjust buckles are attached directly to the mask skirt for a better, more comfortable seal (non-purge model)
- Fog resistant coating
- Plastic box with lid included

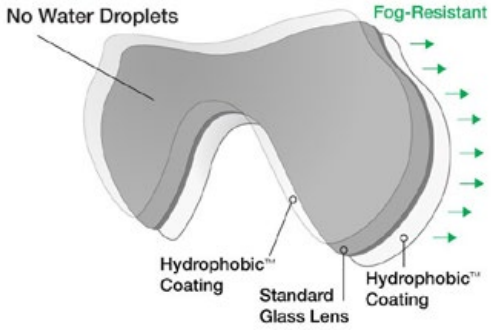
SMA647BS	Rose		135.00

Hydrophobic™

Hydrophobic™ coatings use nano-technology to fill in the tiniest surface imperfections in the glass. This process leaves the glass surface so slick, even the smallest water vapor droplets are unable to attach. This provides two benefits:

Upon surfacing, droplets don't form on the glass, allowing unobstructed vision.The inside is resistant to fog.

The Hydrophobic™ coating provides the best fog resistant performance of all Seadive masks.



Eagleye - Hydrophobic™

- The Eagleye is the most popular frame in the Seadive line. It provides excellent peripheral and downward vision
- Easy-adjust buckles are attached directly to the mask skirt for a better, more comfortable seal
- Fog resistant coating
- Plastic box with lid included

OCEANways
Oceanways® is a brand targeting the snorkeling enthusiast. The masks, snorkels, fins and especially the mask / snorkel combination sets are geared for the price-conscious.
The Oceanways® products use some of the technologies found in the SeaDive professional masks, such as high definition lens coatings. Since the products are robust and economically priced, they are often found in high-use situations such as rental departments, training programs and resorts.
If the price of professional scuba equipment is creating a barrier to entry for your casual snorkelers, consider the Oceanways® brand and keep them snorkeling.

OCEANways® SuperView-HD

- SeeSharp High Definition Lens
  - Sharpens underwater viewing
  - Reduces distortion by defining faint edges

Passage Dry Snorkel

The Passage snorkel represents the latest in snorkel dry top technology. This highly efficient dry top, coupled with a self-draining lower end, results in an easy and comfortable snorkeling experience. The quick release snorkel keeper and removable silicone mouthpiece just add whip cream to your snorkeling adventure!

- Patented dry top prevents water from entering at the surface or underwater
- Self-draining purge valve at the bottom allows any water to exit
- Reservoir at the lower end allows you to breathe past small amounts of residual water
- Comfy-bite mouthpiece uses a unique bridge that runs behind your front teeth to hold it firmly in place. This avoids clenching and allows you to relax your jaw
- Mouthpiece is replaceable and can be changed out for a smaller or standard model
- Flex tube allows the mouthpiece to drop out of the way when not being used
- Quick-release snorkel keeper allows for easy removal from the mask

Cargo

For those that don't like to wear a snorkel but think it may be a good idea to have one "just in case", we offer the Cargo Snorkel. Just roll it up, secure the tip to the customized snorkel keeper, and stow it in your pocket. When it's time to use it, simply unclip it, because it is 100% silicone, it pops back into its original shape. It's clever! It's compact! It's Cargo!

Packaging shown above

Roll up and stow in your BC pocket

CE

- Roll up and stow in your BC pocket
- Carry this snorkel out of your way
- 100% silicone construction
- Self-draining purge valve
- Special snorkel keeper to keep it rolled up
- Compact design

SN650CL	Clear Silicone		38.00

FLO

The FLO snorkel is a quality, contoured, open top snorkel. Since the lower end is a traditional, non-purge type, it allows for the displacement clearing technique. This makes FLO a favorite among freedivers, spearos and veteran scuba divers. Go with the tried and true design.

- Contoured shape minimizes drag
- Open top design maximizes gas exchange
- Non-purge mouthpiece allows for the displacement clearing method
- The internal bore is smooth to prevent residual water
- Semi-rigid tube
- Easy-to-use adjustable snorkel keeper
- Uses a silicone mouthpiece

PART #	COLOR	DESCRIPTION	RETAIL
SN500BS	Black	FLO Snorkel	33.00
SN500GN	Green		33.00
SN500BU	Blue		33.00

Ambush

The Ambush snorkel is the obvious choice to complete the Stalker Camo masks. Using the same water transfer technology as the masks, they blend beautifully with the Stalker mask and the environment. The Ambush is comfortable in the mouth and contoured perfectly to your head.

- For the purists, the Ambush is a traditional open-top design
- The non-purge mouthpiece allows for the displacement clearing method
- Semi-soft tube
- Uses a traditional “figure 8” snorkel keeper
- Contours to the head to minimize drag
- Comfortable silicone mouthpiece can be rotated into the perfect position

Snorkel Mouthpiece

XS Scuba offers a wide selection of high-quality silicone mouthpieces that fit most of today's popular models.

3 styles available

Standard – uses traditional bite tabs

Slim – popular with women and younger snorkelers

Comfy – has a unique bridge that fits across the upper palate that holds the mouthpiece in place. This prevents clenching and reduces jaw fatigue

- Injection molded from liquid silicone
- No tie wrap necessary

FLASH FIN

NEW 25

Compact yet powerful, the Flash Fin will propel you to your next underwater adventure with the ease of a traditional scuba fin, making it the ideal travel-friendly fin for scuba divers and snorkelers.

- Made with proprietary Flexprene+, an advanced composite thermoplastic engineered to offer the perfect balance of elasticity, power, rebound, and responsiveness, while still being very lightweight
- Comfortable, soft and ergonomic foot pocket designed to be worn barefoot or with spandex or neoprene socks
- Fully adjustable heel strap with quick release buckles for easy donning and doffing
- Large size indicators molded into rear heel for quick size identification, ideal in busy rental environments

PART #	SIZE	MEN'S SHOE SIZE	WEIGHT	RETAIL
FN575BK	XS-S	4 - 7	2.1 lbs (1.0 kg)	99.00

FN578BK	XXL	11.5 - 13.5	3.5 lbs (1.6 kg)	99.00

Phenom Fins

What do you get when you blend the best design features of the industry's leading fins? Phenomenal performance! Introducing Phenom, XS Scuba's high-performance fin for scuba diving.

- Phenom fins start with an iconic blade design that creates super channels on both the upstroke and downstroke. The channels direct the water longitudinally down the length of the blade, preventing spill over the side ribs
- The blade is attached to a soft, comfortable foot pocket at the mid-foot position, as opposed to the front. This prevents hyper-extension of the toes and ankle and allows the entire foot to be used while diving the fin
- "Stretch Straps", with large finger loops and quick-release buckles, are comfortable, secure and convenient
- Raised ribs on the foot plate alleviate the suction effect when taking off the fins
- Molded from a proprietary composite material coupled with thermoplastic rubber, the Phenom Fins take comfort and efficiency to a whole new level

APTOS Freediving Fins

The Aptos Fins are the ideal choice for freediving students, novices and enthusiasts. The attractive price point lessens the barrier to getting started. The foot pockets are extremely comfortable and will accept more advanced blades as the novice moves on in their skills and experience. Foot pockets are also sold separately.

- Universal rubber foot pockets accept a wide variety of blades
- Comes with a polypropylene blade
- Six sizes are available
- *Foot pockets and blades ship separately.* ***Assembly required***

HIGHLAND ENGINEERED QUALITY Technical Spring Straps

Spring heel fin straps are popular because they are comfortable, easy to use and practically indestructible. Highland premium spring fin straps are made from stainless steel springs and covered with nylon tube webbing to protect the spring and keep out grass and other plant matter. The thumb puller is streamlined and designed not to snag on objects like traditional finger loop designs can do. The springs have machined Delrin ends that attach to one of two types of stainless steel adapter fittings with a stainless screw and nylon lock nut. Nylon line on the inside of the spring prevents over-extension of the strap.

- One kit attaches to most brands of scuba fins
- High quality stainless spring & buckles will not rust
- Streamlined thumb pull will not snag
- Internal cave line to prevent overstretching of springs
- Includes "old school" buckles for rubber fins & post buckles for most modern fins

How to Select the Proper Size

- Insert your foot into the fin pocket while wearing a boot
- Measure from the attachment point on one side of the fin, around your heel, to the other side
- Choose the spring straps with an overall length that is approximately 1 inch shorter than this measured distance

Extra Holes For 1/2 Step Size Adjustments

"Old School" Buckles Included

"Post" Buckles Included

PART #	SPRING LENGTH	OVERALL LENGTH	DESCRIPTION	RETAIL
HL708	8 in (203 mm)	10 in (254 mm)	Technical Spring Straps	88.00

SK BOOT

NEW 25

The SK Boot is an in-water work boot. The proprietary CanyonGrip™ sole protects your feet when getting to the water's edge presents a challenge. The 5 mm quality neoprene provides meaningful protection and warmth.

FEATURES

- A neoprene panel behind the zipper is an effective barrier to cold water entry
- Neoprene panels are glued and blind-stitched to prevent water ingress through the seams
- Uses a #10 YKK, corrosion-free, Delrin zipper with nylon zipper stop
- Protective heel and toe caps prevent fin abrasion
- Rugged CanyonGrip™ sole provides quality traction as well as foot protection
- Boot size predominantly printed on the cold water barrier behind the zipper
- 5 mm neoprene thickness displayed on back of boot
- Hi-viz yellow accents assist in bootie location from bottom of the gear bag at night

Touch Gloves

A unique concept in dive gloves which allows the diver to temporarily expose their thumb and forefinger to engage push buttons on wrist top computers, watches, GoPros™ and cameras. The wide, adjustable hook-and-loop wrist closure is removable so you can add a computer or watch in its place.

- Retractable fingertip and thumb caps expose the finger and thumb to operate your dive computer or camera
- Wide gauntlet makes it easy to put on
- 3 mm thickness
- Customer friendly packaging

KANA 3/2 and 5 MM Full Suit

Kana is a line of women's and men's wetsuits that will enhance your comfort and pleasure in the water. Available in either 3/2 mm or 5 mm thicknesses, Kana brings you the necessary warmth to maximize your fun.

Comfortable

- Made from premium superstretch fabrics, the Kana suits slide on nicely and peel off easily
- Tailored specifically for a diver's or snorkeler's streamlined swimming position to prevent binding and chafing
- Patterns were created to minimize seams for maximum stretch and warmth
- The 3/2 mm suits have flat-lock stitching for maximum comfort, while the 5 mm suits are glued and blind stitched for increased warmth

Smart

- A finger loop at the base of the zipper assists the user in zipping up their own suit
- Before removing the suit, a clever neck closure allows the user to fold the hook tab over, on to the adjacent loop, so that the hook will not snag and damage other parts of the suit

Durable

- Supratex kneepads bring excellent abrasion resistant properties to this normally high-wear area
- The area beneath the zipper, a common weak point, is reinforced with a rubber patch

Stylish

- Contemporary color combinations
- Custom zipper leashes
- Sharp graphics

3/2 mm Shorty Suit

Perfect for Tropical Snorkeling

The 3/2 Shorty Suit, the ideal suit for tropical skin and scuba diving, represents a tremendous value. Take inventory of its many features and compare them to the price, and you will see what makes this suit so popular at tropical destinations around the globe.

- 3 mm large panels for warmth, 2 mm key panels for stretch and comfort
- "Skin" seals on the neck, arms and thighs to minimize water transfer
- Water dam behind the zipper
- "Skin-out" chest panel reduces chill in the wind
- Heavy-duty #10 corrosion-free zipper reinforced at the bottom with nylon web and rubber anchor pad
- Flat-lock seam construction for comfort and durability
- Adjustable neck for better fit

Rash Guards

When it comes to rash guards, the details are what matter most. Therefore, we add thumb loops to make it easier to get the rash guard sleeve through the wetsuit sleeve. Our design attaches the collar with an external overlock stitch that won't chafe your neck and allows the collar to stretch comfortably over your head. Finally, we use an upgraded 8 oz heavy duty elastane blend with a SPF rating of 50 for maximum durability and protection

- Heavy duty 8 oz material for added warmth and durability
- True 4-way stretch provides comfort and flexibility
- Easier on and off of wetsuit
- Prevent sun burn while snorkeling
- Sun protection factor (SPF) of 50
- External over-lock stitch on the neck prevents chafing and allows the collar to stretch over your head
- Thumb loops make it easy to get your rash guard sleeve through your wetsuit sleeve without bunching up

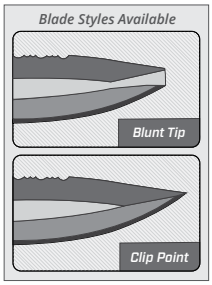
Neuro Knife - Titanium

If you're tired of your knife corroding or losing its edge, upgrade to the Neuro Titanium. Titanium alloy has a very high tensile strength and toughness (even at extreme temperatures). It is light in weight, and has extraordinary corrosion resistance.

- 4.5 in (114 mm) titanium alloy blade
- Available with either clip point or blunt tip design
- The line notch cutter is ideal for cutting monofilament line
- The two-inch serrated edge along back of blade is great for cutting rope
- Full tang runs the length of the handle for strength and rigidity
- Tang protrudes out the back to provide a hammering function
- Self-locking sheath provides an audible "click" to confirm knife engagement
- Attachment point on back of handle for added security
- Includes two 22 in (560 mm) long rubber leg straps with quick release buckles

WARNING: Blunt tip models are made for chiseling and light prying.
Prying with too much force can cause knife breakage and injury!



Overall Length
9.0 in (228 mm)

PART #	DESCRIPTION	BLADE STYLE	RETAIL
KN700	Neuro Knife - Titanium	Clip Point	130.00
KN710		Blunt Tip	130.00
KP10	Replacement Sheath	---	18.00

Neuro Knife - 304 Stainless Steel

The Neuro Knife is a great entry level model that every new diver should carry. The Neuro has excellent ergonomics, feeling comfortable in the hand while being easy to add and remove from the sheath.

- 4.5 in (114 mm) 304 stainless steel blade
- The black model (only) includes a blade with black chromium coating
- Comes standard with a clip point style blade with line notch cutter
- The two-inch serrated edge along back of blade is great for cutting rope
- Full tang runs the length of the handle for strength and rigidity
- Tang protrudes out the back to provide a hammering function
- Self-locking sheath provides an audible "click" to confirm knife engagement
- Attachment point on back of handle for added security
- Includes two 22 in (560 mm) long rubber leg straps with quick release buckles

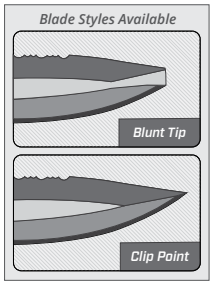
KP10		Replacement Sheath	---	18.00

Stryker Knife - 420 Stainless Steel

The Stryker knives strike the perfect balance between corrosion resistance and the ability to hold an edge. The 420 stainless steel blade is harder, and therefore holds an edge better, than a less expensive 304 stainless model. This results in a sharper knife, one that you can rely on in an entanglement situation.



- The 4.75 in (121 mm) blade is available in either a clip point or blunt tip design
- The two-inch serrated edge along back of blade is great for cutting rope
- The line notch cutter is ideal for cutting monofilament line
- Enlarged guards prevent the hand from slipping forward onto the blade
- Full tang runs the length of the handle for strength and rigidity
- The butt cap on the back provides a hammering function
- An attachment hole runs through the butt cap
- Includes two 22 in (560 mm) long rubber leg straps with quick release buckles

WARNING: Blunt tip models are made for chiseling and light prying.
Prying with too much force can cause knife breakage and injury!

Overall Length
9.75 in (248 mm)

KP01	Replacement Sheath	---	27.00

Rook Knife - 304 Stainless Steel

Compact knives, like the Rook, lend themselves to a variety of mounting locations. Though small in size, it remains very effective at removing entanglements. Monofilament, nets and kelp are no match for its sharp blade.

Mount to Standard Rubber High Pressure Hose

- Compact, low-profile backup knife
- Rust-free 304 grade stainless steel
- Modified blunt tip 2.75 in (70 mm) blade
- Advanced serration and line cutter
- Easy release, positive-locking sheath
- Five versatile options for mounting
  - Hose mount to Miflex HP hose (8 mm)
  - Hose mount to rubber HP or LP hose (13 mm)
  - Hose mount to Miflex LP hose (13 mm)
  - Mount to BC / harness, thumbscrews included
  - Attach to leg or arm (0.75 in (19 mm) wide straps not included)

Mount to BC Pocket or Harness Webbing

Rook Knife Includes

A.) Std Hose Mount Insert *B.)* Miflex Hose Mount Insert *C.)* Hose Mount Plate
D.) Two Thumbscrews *E.)* Four Mounting Screws

FogCutter X Knife - 420 Stainless Steel

This ingenious knife is actually three tools in one. Not only is it an effective, sharp knife, it also has sharp scissors and a serrated pipe grip integrated into it. The scissors are very effective for cutting monofilament, loose threads on wetsuits, excess webbing on harnesses and belts, just to name a few. The pipe grip can twist a stubborn nut or bolt. Get more work out of your dive knife with the FogCutter X.

- 4.75 in (121 mm) blade
- The 420 stainless steel blade is hardened to hold the edge longer
- Serrated edge along back of blade
- A serrated pipe grip integrated into the handle is ideal for twisting stubborn items
- A butt cap, with attachment hole, located on the back, provides a hammering function
- Includes two 22 in (560 mm) long rubber leg straps with quick release buckles

LED Glowstick

LED Glowsticks not only provide an added element of safety to your night dive, they save money, and are good for the environment too! Gone are the days of buying and throwing away one-time use plastic, chemical light sticks.

- A long-lasting LED powers fourteen light-emitting fibers to brightly illuminate the glowstick
- SS cable lanyard with SS clip keeps the glowstick secure
- Multiple colors allow you to identify your buddy as well as other divers in your party
- Black chromed brass case with a dual O-ring seal
- Carries a back-up tank valve O-ring for PRO Valve
- Approximate diameter 0.5 in (13 mm)
- Powered by three LR44 alkaline batteries (included)
- Mounting straps makes it easy to mount directly to regulator first stage

CORALITE

You don't need to spend a small fortune to light your dives. The CORALITE, with its 400 lumens of LED output, is bright enough to light your darkest night dives and useful during the days to peer back into holes and crevices. The lightweight, ABS housing is comfortable in your hand for long durations. The locking switch prevents unintentional activation in your gear bag. Just install 3xAA batteries (not included) and you're ready to go.

Features

- 400 lumen output
- 3.2 hours burn time on HIGH
- 3x AA 1.5V or 3x AA NiMH 1.2V batteries
- Depth rated to 260 ft (80m)
- Locking switch to prevent accidental discharge

Specifications

- Brightness: 400 lumens on high / 40 lumens on low
- Duration: 3.2 hrs on high / 24 hrs on low
- 200 m beam distance
- 7000 lux peak beam intensity
- Weight w/ batteries: 8.5 oz (240g)

Packaging

Wrist Lanyard Included

LT075	CORALITE Dive Light	55.00

Dimensions
36 x 26 x 11 in (91 x 66 x 28 cm)

Universal Floating Object

UFO

The UFO is a versatile, floating platform that can be adapted to numerous uses with the addition of customized kits and accessories. Use it for spearfishing, scuba instruction or hookah.

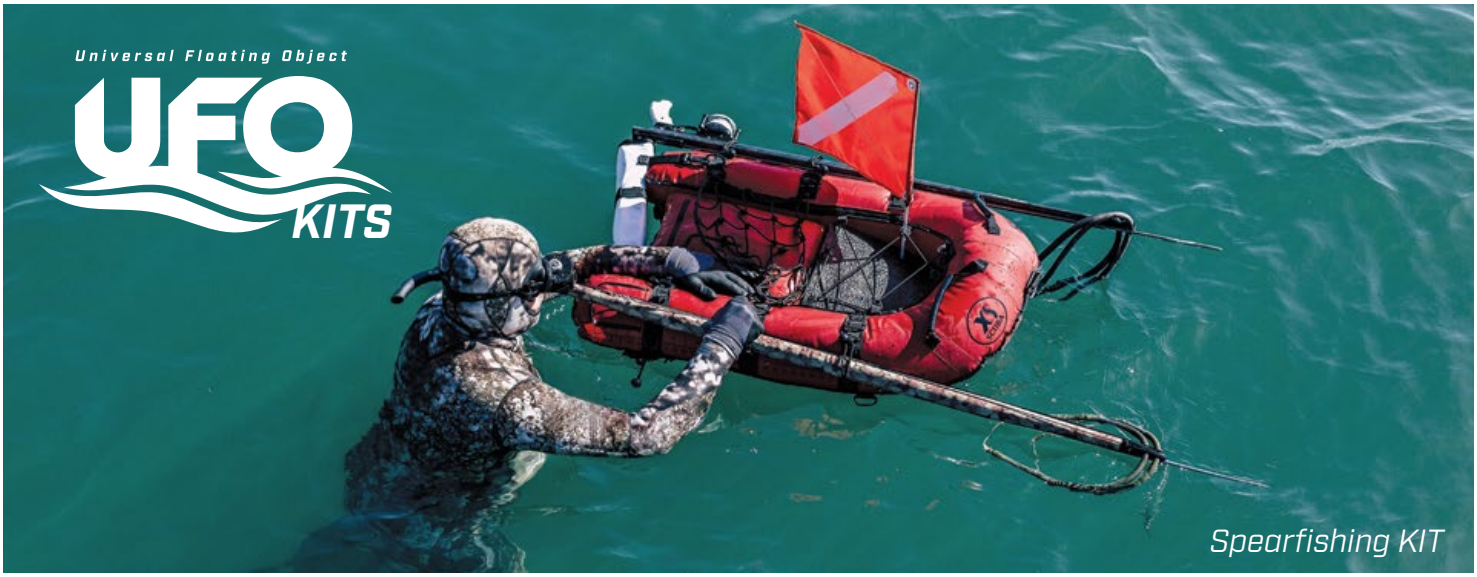
The base model is so feature-rich that do-it-yourselfers will find countless uses for it. There are plenty of tie-downs and attachment points along with ample storage space.

The UFO is rugged. Handles, clips and D-rings are reinforced. The inner bladders are made from thick PVC film and the outer shell is 600D with 4 coatings of polyurethane.

The UFO base model comes standard with a dive flag and staff, shoulder straps, thick foam floor board for rigidity, a crisscross bungee hold-down with tensioner, and enough bungee cord and pull bobs to build 6 tie-downs.

- Rugged construction
  - Outer shell - 600D with 4 coatings of polyurethane
  - Inner bladders – thick PVC film
- 28 attachment D-rings and 12 attachment hooks
- Includes 15 x 12.75 in (38 x 32 cm) dive flag with wire stiffener, staff and mounting hardware
- 2 shoulder straps for hands-free transporting
- Crisscross bungee hold-down with tensioner
- Enough bungee cord and pull bobs to build 6 tie-downs
- 28 in (70 cm) fish measuring scale along starboard side
- Drain holes with SS grommets

PART #	DESCRIPTION	RETAIL
UF100	UFO - Universal Floating Object	297.00



Spearfishing and Collecting Kit

The UFO provides many uses to the hunter and gatherer. It will hold all your equipment as well as your catch. It works as a speargun breakaway float for large fish or a chase float. It also works well as a support raft to aid in kicking out to your dive site.

The kit includes: The Anti-Shark Fish Bag, a Collection Bag and a Cargo Net.

Instructor Kit

Finally, an instructor float that does it all! With the installation of the Instructor Kit, the UFO offers plenty of student hand holds as well as secure storage space for instructor slates, spare items and safety equipment.

The kit includes: 2 Handle Assemblies, a zippered Cargo Bag, Cargo Net and a small Folding Anchor.

Hookah Kit

The UFO set up for hookah will be popular with resorts and working divers. The UFO is capable of securely holding the heaviest, large volume cylinders on the surface while the user enjoys freedom of movement down below. We recommend connecting the hookah hose to the UFO bow ring and a pocket weight belt using one of our hose hooks (p/n AC956).

The kit includes: The Tank Carrier with 4 SS clips, a Xplore 1st Stage, 25 ft of Yellow Low-Pressure Hose, 1st Stage Quick Disconnect, 2 ea. Hose Hooks, a Hookah 2nd Stage, a 110º Angle Adapter and a 4-Pocket Zippered Weight Belt.

PART #	DESCRIPTION	RETAIL
UF150	Spearfishing and Collecting Kit	104.00
UF160	Instructor Kit	88.00
UF170	Hookah Kit	605.00

Cave Markers *(10 Piece Packs)*

Highland Cave Markers are strong and highly visible. They are a good value because they are of excellent quality at an affordable price.

- Available in white or glow-in-the-dark
- You can easily write on them with a permanent marker
- All points have been rounded off for ease of use
- Molded from ABS plastic
- Thickness is 0.15 in (3.8 mm)
- Attach perfectly to the Highland Cave Marker Holder (p/n HL935)

Cave Marker Holder

The Highland Cave Marker Holder is a smart way to safely secure and organize your cave markers. Simply pull the tubing to add or remove your markers. Relax the tubing and the markers are held firmly in place.

- Organized storage – no more hunting for the proper markers in your utility pockets
- Bolt snap made from 316 stainless steel
- Overall length of 7.75 in (19.6 cm) allows plenty of room for all your markers
- Replacement tubing kit available (p/n HL936)

Line arrows and line cookies are sold separately.

HIGHLAND ENGINEERED QUALITY SQUALL POCKET

The Squall Pocket is perfect for carrying your backup mask. The semi-rigid sides allow the mask to slide right in. An over-sized clip on the front is no match for 5 mm or dry gloves. The Squall is so versatile, it can also carry many types of technical accessories, such as spools, Wet Notes, and SMBs.

- Made from rugged 1680D nylon
- Tri-fold web loops clamp on to 2 in (50 mm) harness webbing
- A 1 in (25 mm) SS D-ring provides an alternate clip-on option
- Features an over-sized 2 in (50 mm) side-release buckle for easy operation with gloves

Internal Dimensions:
6.25 x 2 x 4 in
(15.9 x 5.1 x 10.2 cm)

External Dimensions:
7 x 2.5 x 5 in
(17.8 x 6.4 x 12.7 cm)

PART #	DESCRIPTION	RETAIL

“Quick Launch” Marker Buoy

Deploying a marker buoy from depth has its challenges. Securing a line spool and SMB, connecting them together, deploying them, all while maintaining neutral buoyancy and holding on to other gear, has overwhelmed many a diver. The “Quick Launch” Marker Buoy simplifies the procedure! The line spool is stored within the marker buoy and is already connected to it! Just add air and let it fly.

Lower pocket includes a spool with 100 ft (30 m) of line

PART #	COLOR	DESCRIPTION	RETAIL

AC085-YL	Yellow		110.00
AC085-YL/OR	Yellow / Orange		110.00

“Smart Marker” Buoy (SMB)

With so many SMBs in the marketplace, it is easy to become confused. Some are “bare bones” proving difficult to use, while others are overbuilt, more suited for extreme expeditions. The XS Scuba Smart Marker Buoy (SMB) adds all the right features in all the right places.
It’s the “Smart” choice.

Adding a lead weight in the Smart Marker pocket keeps it floating vertically.

PART #	COLOR	DESCRIPTION	RETAIL
AC065-OR	Orange	"Smart Marker" Buoy	88.00
AC065-PK	Pink		88.00
AC065-YL	Yellow		88.00

7’ SMB - Surface Marker Buoy

This large, 7 ft (2.1 m) SMB is the one you want when you know that you will be diving in a location known for strong wind and currents. The large diameter will help keep it vertical in adverse conditions and will be more easily seen by boats.

PART #	DESCRIPTION	RETAIL
AC070-OR	7’ SMB - Surface Marker Buoy	110.00

LoPro Marker Buoy

The LoPro Marker Buoy integrates the over-pressure valve into the inflation stem allowing it to roll up into the most compact 6 ft surface marker buoy available!

PART #	DESCRIPTION	RETAIL
AC077-OR	LoPro Surface Marker Buoy	71.00

6’ SMB - Surface Marker Buoy

This entry-level model is compact and very easy to deploy and inflate. If quick and easy are the objective, there is none better. Made from 75D urethane backed fabric.

HIGHLAND ENGINEERED QUALITY Technical Marker Buoy

Rebreather, extended range, and sidemount divers have different requirements for a DSMB than recreational divers. From the heavy-duty 420D nylon fabric to the over-sized stainless attachment D-ring on the bottom, this DSMB is a quality product purposefully designed with the technical diver in mind.

- Closed bottom design - 45 in (114 cm) length x 10 in (25.4 cm) circumference
- The stainless steel tipped inflator allows oral or QD hose inflation
- 2 in (5 cm) wide SOLAS reflector tape all the way around
- 2 x 4 in (5 x 10 cm) white panel at the top to write on with a permanent marker
- 1.5 in (38 mm) over-pressure valve with pull cord for easy deflation and roll-up
- 1 in (25 mm) plastic attachment D-ring at the top

Large, 1.5" SS D-ring attachment

SS tipped inflator for durability

White ID panel and SOLAS reflector

PART #	DESCRIPTION	RETAIL
HL206	Technical Marker Buoy	73.00

HIGHLAND ENGINEERED QUALITY 10' Surface Marker Buoy

This expedition quality model is exactly what you want when diving in high seas or areas of heavy boat traffic.

- BIG – 10 ft (3 m) long with 22 in (559 mm) circumference
- Large enough to greatly enhance diver visibility yet compact enough to carry easily
- 75 lb surface lift
- Anti-spill bottom with baffle to allow easy fill from any second stage
- Combination oral and BC QD inflator
- 2 in (50 mm) diameter OPV with pull for manual release
- Three bands of 3M SOLAS reflective tape for improved surface visibility
- Stainless steel D-ring at top for strobe attachment
- 20 in (51 cm) long lift harness with stainless steel D-ring
- Elastic chemical light stick holder at top
- Includes 6.5 x 14 in (16.5 x 36 cm) mesh carry pouch with grommets for backplate attachment (p/n HL085)

HIGHLAND ENGINEERED QUALITY *Original* Weight Plates - 2 Pack

Sidemount divers, technical divers, and free divers, this product is for you! Highland Weight Plates are a quick and easy way to add block of lead to a 2 in (50 mm) wide piece of webbing such as a harness or weight belt. This will allow for fine tuning of your weight requirement without having to do any disassembly.

- Includes 2 plates and 4 pieces of green bungee
- Plate is molded from rugged glass-filled nylon for maximum durability
- Recommended for 1, 2, 3 and 4 lb blocks of lead
- Numerous pyramid anchor points bite into the webbing to keep the plate securely in place

HIGHLAND ENGINEERED QUALITY Side-Slide Weight Pockets *(Pair)*

Side-Slide weight pockets are an easy way to add lead to a 2 in (50 mm) webbed harness, usually associated with a backplate and a wing.

- Large, side-squeeze 2 in (50 mm) buckles on the front of the pocket for easy release of weights
- Adjustment strap with D-ring to cinch down for snug fit
- Each pocket holds up to 12 lbs (5.5 kg) of lead weights
- The dual grommet tail on the back allows for attachment to the backplate. This keeps pouches from sliding forward
- A 30° angled web retainer on the back provides an option to mount the weights at an upward angle, a feature desirable to small waisted divers
- Book screws not included

BPH51 - Replacement pocket

PART #	DESCRIPTION	RETAIL
HL209	Side-Slide Weight Pockets (Pair)	116.00
BPH51	Inner Replacement Pocket - Black (Single)	33.00

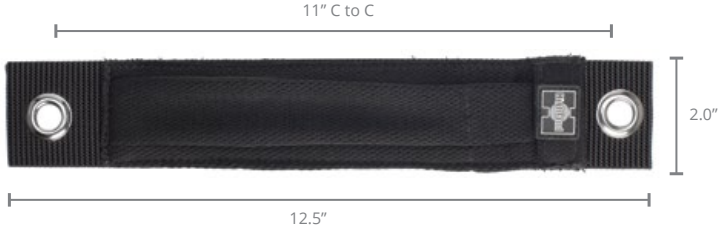
HIGHLAND ENGINEERED QUALITY Tail Weight Pouch

- Designed for adjusting your trim when using double cylinders
- Attach with lower cylinder band bolt
- Two stainless steel grommets for attachment
- Sealed opening with double hook-and-loop closure
- Holds up to 6 lbs (2.7 kg) of #5 or smaller lead shot
- Wide opening allows the use of hard weight up to 5 lbs (2.25 kg)

PART #	DESCRIPTION	RETAIL
WB500	Tail Weight Pouch	20.00
HL510	SS Book Screw - 1 Complete Set	11.00

HIGHLAND ENGINEERED QUALITY "V" Weight Pouch

- Add trim weight in the center groove of your backplate
- Attach with twin cylinder band bolts
- Stainless steel grommets
- Two mesh compartments - front and back
- Sealed opening with double hook-and-loop closure
- Holds up to 5 lbs (2.25 kg) of #5 or smaller lead shot



PART #	DESCRIPTION	RETAIL
WB550	"V" Weight Pouch	20.00
HL510	SS Book Screw - 1 Complete Set	11.00

Stainless Steel Spring-Loaded Buckle

- Replacement for most weight belts
- Adds depth compensation to a weight belt
- Internal springs allow for expansion of buckle
- Rust-free 304 stainless steel
- Fits 2 in (50 mm) webbing

PART #	DESCRIPTION	RETAIL
AC310	SS Spring-Loaded Weight Buckle	30.00

Weight Belt Buckle - Delrin

- Replacement for most weight belts
- Tough, Delrin material
- Fits 2 in (50 mm) webbing

PART #	DESCRIPTION	RETAIL
WBB-BK	Delrin Weight Belt Buckle	4.50

Weight Keepers

- Keep your weights positioned where needed
- 3 models to choose from
- 2 in (50 mm) slots, with serrations, for slip-free security

PART #	DESCRIPTION	COLOR	RETAIL
WK-BK	Delrin Weight Keeper	Black	1.50
WK-BU	Delrin Weight Keeper	Blue	1.50
WK-YL	Delrin Weight Keeper	Yellow	1.50
WK-SS	SS Weight Keeper	Stainless Steel	2.00
AC305D	SS Keeper with D-ring	Stainless Steel	10.00

Retainers

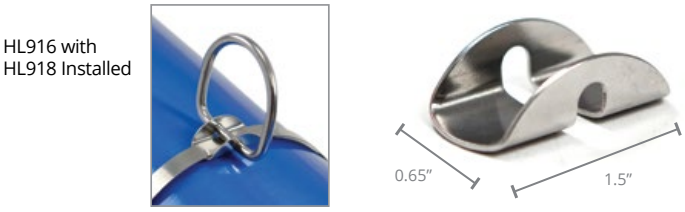
- 316 stainless steel

PART #	DESCRIPTION	RETAIL
HL917	2.0" SS Three Bar Slide	3.00
HL941	SS Adjuster (for harness webbing)	6.00

D-Ring Holder *(Taco)*

Works with HL918

- 316 stainless steel



PART #	DESCRIPTION	RETAIL
HL916	D-Ring Holder (Taco) - Works with HL918 D-ring	4.50

HIGHLAND Retainers

- 316 stainless steel

PART #	DESCRIPTION	RETAIL
HL942	T Retainer for 2" Webbing	6.00
HL943	4-Bar Slide w/ Angled D-ring for 2" Webbing	7.00

HIGHLAND Billy Rings

- 316 stainless steel

PART #	DESCRIPTION	RETAIL
HL908	45 Degree Billy Ring	11.75
HL909	90 Degree Billy Ring	11.75

HIGHLAND 1" Split Rings *(5 pack)*

Split rings, like tie wraps, are a diver's best friend. Use them to attach items to your D-rings, such as car keys, lanyards and retractors. Keep some in your save-a-dive kit. They're inexpensive but oh so useful.

- 304 stainless steel

PART #	DESCRIPTION	RETAIL
HL948	1" Split Ring (5 pack)	9.50

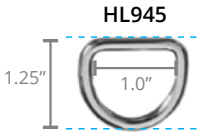
HIGHLAND Tear Drop Split Rings *(5 pack)*

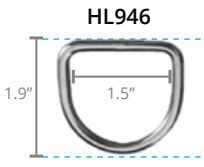
These heavy-duty split rings have a nice oval, tear drop shape.

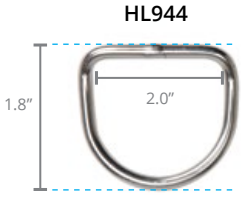
- 1.5 in (38 mm) long x 1 in (25 mm) wide
- 304 stainless steel

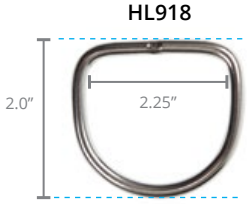
PART #	DESCRIPTION	RETAIL
HL949	Tear Drop Split Rings (5 pack)	17.00

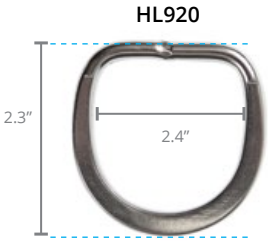
HIGHLAND D-Rings







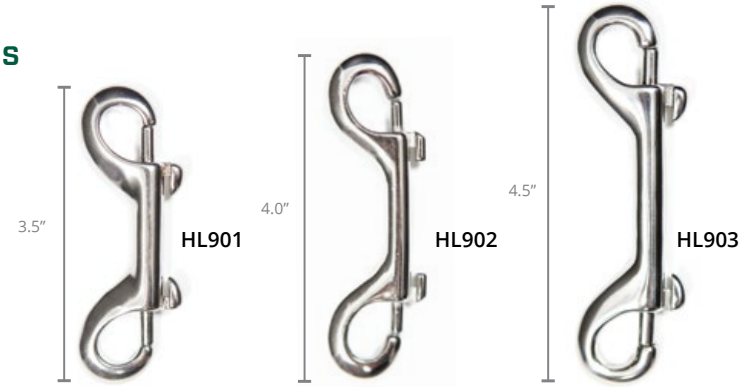




PART #	DESCRIPTION	RETAIL
HL945	1.0" SS D-Ring 5 mm Wire - 304 Stainless Steel	4.50
HL946	1.5" SS D-Ring 5 mm Wire - 304 Stainless Steel	6.00
HL944	2.0" SS Welded Angled D-Ring 6 mm Wire - 316 Stainless Steel	7.50
HL918	2.0" SS Welded D-Ring 6 mm Wire - 316 Stainless Steel	6.00
HL920	2.0" SS Flat Lifting D-Ring 8 mm Wire - 316 Stainless Steel	13.00

HIGHLAND ENGINEERED QUALITY Double-ender Bolt Snaps

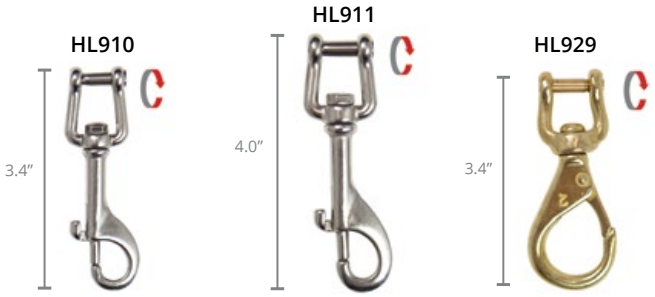
Highland Double-ender Bolt Snaps are made of high-quality marine-grade 316 stainless steel. They are highly polished and outfitted with premium stainless steel springs. The result is evident by how smooth the bolt action is.



PART #	DESCRIPTION	RETAIL
HL901	3.5″ Double-ender Bolt Snap	15.25
HL902	4.0″ Double-ender Bolt Snap	18.00
HL903	4.5″ Double-ender Bolt Snap	21.00

HIGHLAND ENGINEERED QUALITY Shackle Bolt Snaps

Highland Shackle Bolt Snaps are made of high-quality marine-grade 316 stainless steel. They are unique in that they combine a D-shackle with a bolt snap. They are useful when you want to keep a bolt snap semi-permanently mounted to an accessory item, such as a reel or a DM pointer.



PART #	DESCRIPTION	RETAIL
HL910	3.4″ Shackle Bolt Snap	24.00
HL911	4.0″ Shackle Bolt Snap	27.00
HL929	3.4″ #2 Brass Shackle Snap Hook	16.00

HIGHLAND ENGINEERED QUALITY Snap Shackles

- 316 stainless steel, except HL929, which is brass
- Revised for 2025, snap shackles now include Highland green paracord pull cord for quick and effortless opening

PART #	DESCRIPTION	RETAIL
HL926	3.5″ Snap Shackle	38.00
HL927	3.5″ Snap Shackle on 2″ Welded D-Ring	30.00
HL928	5.0″ Snap Shackle	72.00
HL937	Highland Pull Cord 5 Pack	44.00

HIGHLAND ENGINEERED QUALITY Swivel Bolt Snaps

- 316 stainless steel

PART #	DESCRIPTION	RETAIL
HL904	2.75″ Swivel Bolt Snap	15.25
HL905	3.5″ Swivel Bolt Snap	18.00
HL906	4.75″ Swivel Bolt Snap	24.00
HL907	3.75″ Butterfly Swivel Bolt Snap	21.00
HL913	4.0″ "U" Top Swivel Bolt Snap	21.00
HL915	4.75″ Swivel Bolt Snap with 1.75″ Ring	30.00

HIGHLAND ENGINEERED QUALITY Stainless Steel Spring Hook

While they serve many purposes, Spring Hooks are a strong, secure way to attach accessories to your harness or BC.

- 316 stainless steel

PART #	DESCRIPTION	RETAIL
HL921	2.4″ Spring Hook	8.50
HL922	3.2″ Spring Hook	14.00
HL923	4.0″ Spring Hook	21.00
HL924	4.7″ Spring Hook	30.00

HIGHLAND ENGINEERED QUALITY Stainless Steel Quick-Link

When you need something more permanent than a clip, a quick-link is what you want.

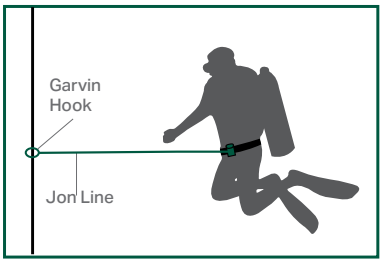
- Useful for attaching chain to small anchors
- 316 stainless steel

PART #	DESCRIPTION	RETAIL
HL931	1.9″ Stainless Steel Quick-Link	8.00
HL932	2.3″ Stainless Steel Quick-Link	9.00
HL933	2.5″ Stainless Steel Quick-Link	10.00
HL934	3.0″ Stainless Steel Quick-Link	13.00

HIGHLAND ENGINEERED QUALITY Garvin Hook

The Garvin Hook is an integral part of a Jonline. Use it to hook on to a vertical ascent line.

- 304 stainless steel



PART #	DESCRIPTION	RETAIL
HL424	Garvin Hook	9.00

HIGHLAND ENGINEERED QUALITY 2.0" SS Round Ring

By installing this ring on the neck of your cylinder, you can easily clip off the cylinder for use as a deco hang bottle. You can also place rings on all your cylinders and lock them up by running a cable through them.

- 316 stainless steel

PART #	DESCRIPTION	RETAIL
HL919	2.0" SS Round Ring	5.25

Standard Fill Checker

Attachment to K and PRO valves

40% MAX OXYGEN PREMIXED

Twist Bleed Screw
Stainless steel bleed screw
Positive seal PDVF seat
Easy replacement bleed screw

Gauge *(p/n GB01)*
Easy read 2.75 in (69.8 mm) diameter gauge
Dual scale - 0 to 5000 psi and 0 to 350 bar
Stainless steel case

Gauge Boot *(p/n GP17)*
Included with fill checker
Snug fitting, silicone compound for protection of gauge

Attachment
Attachment to K and PRO valves
Large comfortable handwheel

PART #	DESCRIPTION	RETAIL
AC360	Standard Fill Checker	114.00

Deluxe Fill Checker

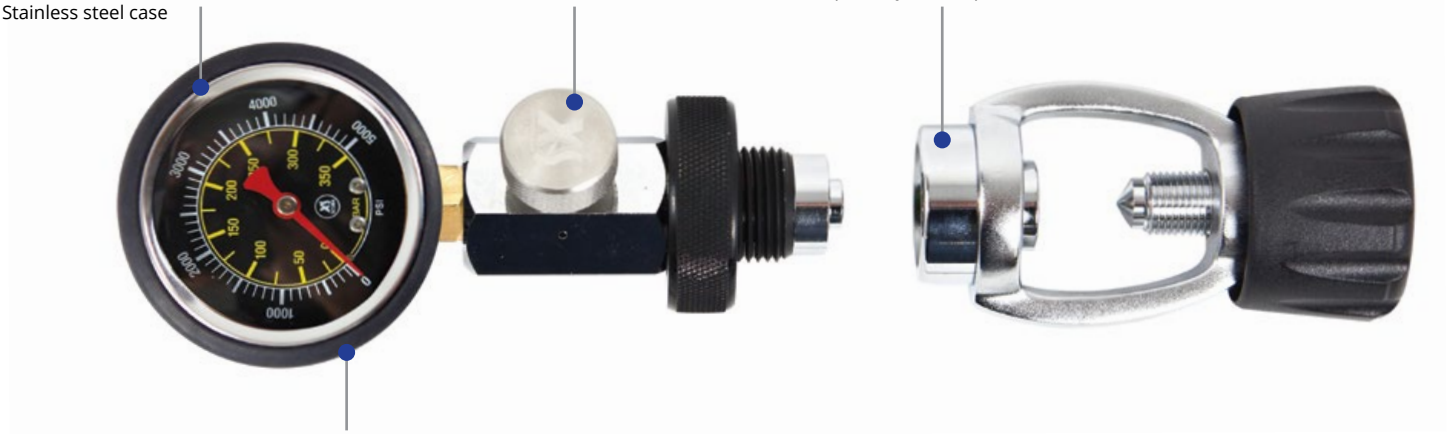
Attaches to K, PRO and DIN Valves

40% MAX OXYGEN PREMIXED

Gauge *(p/n GB01)*
Easy read 2.75 in (69.8 mm) diameter gauge
Dual scale - 0 to 5000 psi and 0 to 350 bar
Stainless steel case

Twist Bleed Screw
Stainless steel bleed screw
Positive seal PDVF seat
Easy replacement bleed screw

Combo Attachment
Attachment to K, PRO and DIN valves
Attachment to 200 bar and 300 bar DIN valves
Spin-on yoke adapter



Gauge Boot *(p/n GP17)*
Included with fill checker
Snug fitting, silicone compound for protection of gauge

PART #	DESCRIPTION	RETAIL
AC365	Deluxe Fill Checker	154.00

Deluxe Cylinder Equalizer with Braided HP Hose

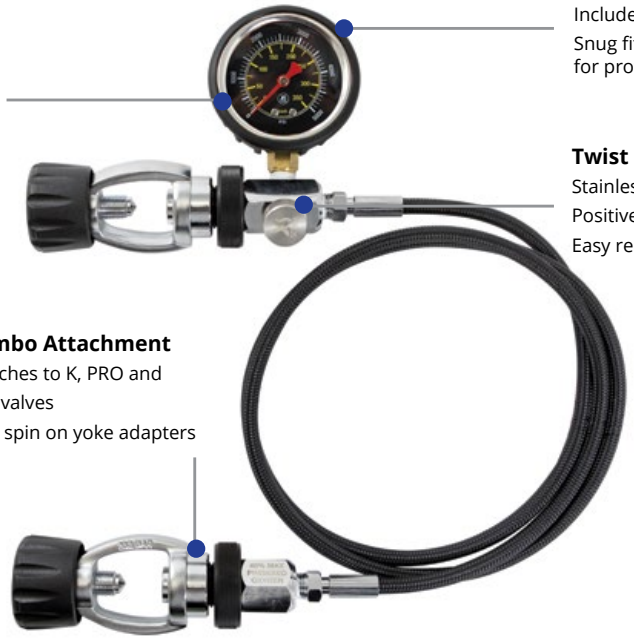
Transfer Gas From One Cylinder to Another

40% MAX OXYGEN PREMIXED

Gauge *(p/n GB01)*
Easy read 2.75 in (69.8 mm) diameter gauge
Dual scale - 0 to 5000 psi and 0 to 350 bar
Stainless steel case

Gauge Boot *(p/n GP17)*
Included with equalizer
Snug fitting, silicone compound for protection of gauge

Twist Bleed Screw
Stainless steel bleed screw
Positive seal PDVF seat
Easy replacement bleed screw



Combo Attachment
Attaches to K, PRO and DIN valves
Two spin on yoke adapters

Braided HP Hose
Thin 0.32 in (8 mm) Diameter
Length 60 in (152 cm)
p/n BHP60-MM

PART #	DESCRIPTION	RETAIL
AC366	Deluxe Cylinder Equalizer	260.00
BHP60-MM	60" Braided HP Hose (1/4" NPT Male Fittings Both Ends)	108.00

High Pressure Gauge - Replacement

- Dual scale gauge: 0 to 5000 psi and 0 to 350 bar
- 2.75 in (69.8 mm) diameter
- 1/4" male NPT thread
- Shock resistant housing
- Replacement gauge for AC360, AC365 & AC366
- Gauge boot not included (p/n GP17)
- Above water use only

Not intended for compressor use. Since it is not fluid-filled, the vibration of the compressor will cause the needle to bounce, making it difficult to read.

40% MAX OXYGEN PREMIXED

Dimensions:
Front - 67.5 mm
Back - 62 mm
Depth - 30.3 mm

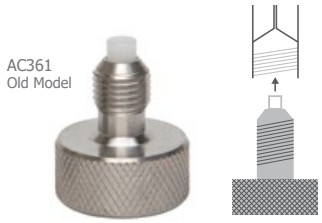
PLEASE NOTE

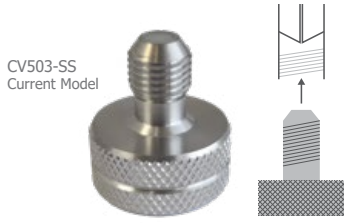
This is a precision, high-quality gauge. Gauge accuracy is checked at three points at the factory prior to shipping. Over-pressurization, mishandling, impact or extended use can decrease the accuracy of this gauge. This gauge is warranted to be accurate at your time of receipt only.

PART #	DESCRIPTION	RETAIL
GB01	High Pressure Gauge Only	47.00
GP17	Replacement Gauge Boot Only	11.00

Stainless Steel Bleed Screws

- AC361 has an extended seat to mate with a recessed conic orifice
- CV503-SS has a flush seat to mate with a raised conic orifice





PART #	DESCRIPTION	RETAIL
AC361	Bleed Screw with Extended Seat	24.00
CV503-SS	Bleed Screw with Flush Seat	24.00

Intermediate Pressure Gauge Checker

Quick and Accurate Check of First Stage Intermediate Pressure

PLEASE NOTE

This is a precision, high-quality gauge. Gauge accuracy is checked at three points at the factory prior to shipping. Over-pressurization, mishandling, impact or extended use can decrease the accuracy of this gauge. This gauge is warranted to be accurate at your time of receipt only.

Low Pressure Gauge *(p/n GB02)*
Dual scale gauge 0 to 300 psi and 0 to 20 bar
2.75 in (69.8 mm) diameter
Stainless steel case
Above water use only

Gauge Boot *(p/n GP17)*
Included with fill checker
Snug fitting, silicone compound
for protection of gauge

Std. Over Pressure Valve *(p/n AC395)*
Over pressure relief valve set at 175-185 psi
Hidden in picture

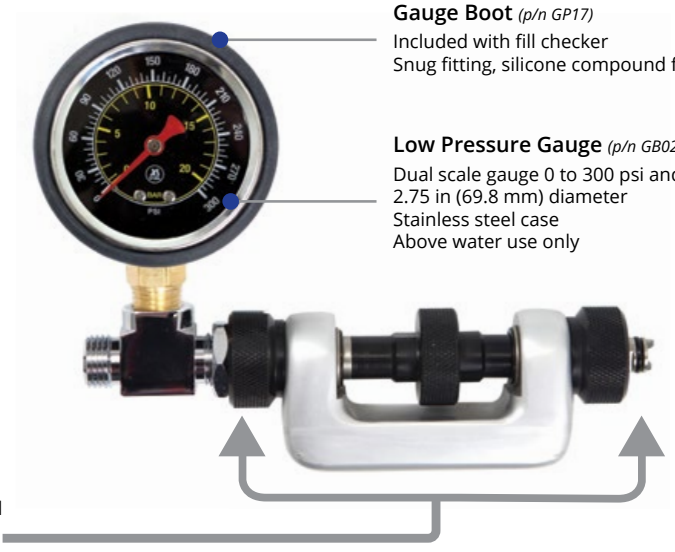
Push Button Bleeder

LP Port Attachment

Spin-On Adapter (included) *(p/n AC382)*
Allows fast attachment to standard BC QD hose

PART #	DESCRIPTION
AC380	Intermediate Pressure Gauge Checker with QD Adapter
AC382	Spin-On Adapter 3/8"-24 Female to QD
GB02	Replacement Low Pressure Gauge without Rubber Boot
GP17	Replacement Gauge Boot Only

Regulator Inline Adjuster



Gauge Boot *(p/n GP17)*
Included with fill checker
Snug fitting, silicone compound for protection of gauge

Low Pressure Gauge *(p/n GB02)*
Dual scale gauge 0 to 300 psi and 0 to 20 bar
2.75 in (69.8 mm) diameter
Stainless steel case
Above water use only

Reversible Low Pressure Gauge
Swap the gauge from left to right side to allow access to both drives
Hand tighten fittings, no wrench needed
One side: 0.32 in (8.2 mm) slotted drive
Other side: 5 mm hex drive

PART #	DESCRIPTION
TL121	Regulator Inline Adjuster
GB02	Replacement Low Pressure Gauge without Rubber Boot
GP17	Replacement Gauge Boot Only
RP200-19	Replacement O-ring

Combo Filler

- Recommended for a save-a-dive kit
- Easy attachment to standard BC quick-disconnect hose
- One end is a standard tire filler
- Other end is a nozzle for blowing air
- Low pressure only - below 200 psi

PART #	DESCRIPTION	RETAIL
AC975	Combo Filler - Air Nozzle & Tire Filler	40.00

BC Washout Hose

- Fits hose mount inflators and also bladder mounted inflators with standard male QD nipple
- Fill about half way with fresh water to fully rinse inside
- Give the BC a good shaking
- Invert the BC, drain the water and debris out by depressing the oral inflator button
- Inflate and allow to dry before storing
- Wash the inside of your BC often

Wash the inside of your buoyancy compensator to remove the build up of salt crystals and foreign deposits

NOT COMPATIBLE WITH BREATHABLE INFLATORS

PART #	DESCRIPTION	RETAIL
TL112	BC Washout Hose	35.00

HIGHLAND ENGINEERED QUALITY Inflator Tool

- Perfect field service tool
- Service for Highland Inflator (p/n HL205)
- Internal spanner for power inflator button
- Stainless steel construction

PART #	DESCRIPTION	RETAIL
TL126	Highland Inflator Tool	14.50

HIGHLAND ENGINEERED QUALITY 4 mm Bungee Cord

No need to sell bungee cord by the foot. This small 25 ft (7.6 m) roll is consumer friendly. With so many varied uses, every diver should keep a roll on hand. The 5/32 in (4 mm) diameter is the most popular size.

Common uses include:

- Bungee forearm mounts (e.g. compasses, slates)
- Regulator necklaces
- Squeezing down wings and BC bladders
- SMB / Lift bag retainers

PART #	DESCRIPTION	RETAIL
HL430	4 mm Bungee Cord - 25 ft roll (7.6 m)	14.50

Scuba Valve Tester

- Fast and easy valve testing
- Designed for in-water testing
- Attach yoke to high pressure source
- 60 in (152 cm) braided HP hose
- Standard 3/4" x 14 NPSM threading to fit most scuba valves

TL119-58

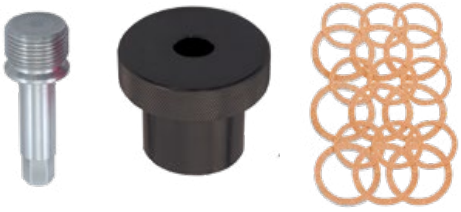
TL119-12

TL119-78

PART #	DESCRIPTION
TL119	Scuba Valve Tester
TL119-58	Test Adapter to Spare Air - 3/4"-14 NPSM Male to 5/8"-18 UNF Female
TL119-12	Test Adapter to Pipe Thread Valves - 3/4"-14 NPSM Male to 1/2" NPT Female
TL119-78	Test Adapter for 7/8"-14 UNF Valves for Small-Neck HP Cylinders

Tank Tool - Aluminum Cylinder

- For aluminum scuba cylinders only
- Two tools in one
- Clean and true threads with 420 stainless steel chaser
- Remove corrosion from O-ring gland
- Replaceable adhesive backed sanding discs
- Includes 10 sets of sanding discs



PART #	DESCRIPTION
TL101	Tank Tool with 10 Sets of Sanding Discs
TL102	Replacement Sanding Discs - 10 Sets

LED Visual Inspection Light

The XS Scuba Visual Inspection Light uses the latest LED technology to produce the bright white illumination required to perform a proper visual inspection.

- Bright white - 6000K color temp wavelength
- Wand length is 14 in (36 cm)
- Cord length = 60 in (152 cm)
- 21 LED chips
- Input 100 – 240v 50/60Hz
- Output 12v = 0.7A
- UV additive inhibits fading of the wand
- LED array is mounted on a single-sided, flat ribbon. The light intensity within the cylinder can be adjusted by simply rotating the wand

PART #	DESCRIPTION
TL105	LED Visual Inspection Light

Tank Muffler

- Drain it quietly, drain it slowly, drain it safely
- Attach to DIN or Yoke style valves
- Exhaust holes on opposite side of XS Scuba logo
- All brass construction

PART #	DESCRIPTION	RETAIL
AC368	Tank Muffler	125.00

Schrader Valve Tool

- Easy removal and installation of schrader valves
- Fits most manufacturer's QD BC hoses

PART #	DESCRIPTION
TL116	Schrader Valve Tool

Valve Handwheel Tool

- Easy removal and installation of valve handwheel nuts
- Fits most manufacturer's valves

PART #	DESCRIPTION
TL113	Valve Handwheel Tool

Multi-Purpose Tool

This very useful tool is a repair technician's best friend.

- Strong 1.5 mm steel wire with flat tip
- Can be used to extract HP seats from pistons or push crown orifices out of 1st & 2nd stage valve bodies

PART #	DESCRIPTION
TL136	Multi-Purpose Tool

Poppet Retainer Tool

This is a very useful tool when servicing standard demand-valve second stages like the XS Scuba Standard Octopus or Hookah second stages. It holds the poppet head stationary so that the locknut can be threaded on to the tail of the poppet.

PART #	DESCRIPTION
TL137	Poppet Retainer Tool

MultiMax Valve Assembly Tool

Considered a "must have" for technicians servicing the MultiMax breathable inflator. It is very helpful during the breathing valve reassembly.

PART #	DESCRIPTION
TL138	MultiMax Valve Assembly Tool

Lubricant Syringes – 2 Ounces

Tribolube-71

- Oxygen safe lubricant compatible with all O-rings and materials used in the scuba industry
- Offers superior anti-wear properties by reducing sticky, residue buildup

Christo-lube MCG 111

- Oxygen-compatible, medium consistency, fluorinated lubricant thickened with PTFE
- Excellent compatibility with metals, plastics and elastomers

PART #	DESCRIPTION
TL158	Tribolube-71
TL108	Christo-lube MCG 111

Silicone Lubricant

- Silicone 2080L lubricant
- Two ounces of lubricant
- Not oxygen compatible

PART #	DESCRIPTION
TL109	Silicone Lubricant 2080L

Workbench Port Plugs

A service technician will use these while testing a rebuilt 1st stage. They are a quick way to plug all the open ports while checking the IP or checking for leaks. No tools required.

- Includes 4 ea. 3/8"-24 LP Plugs & 2 ea. 7/16"-20 HP plugs (6 total)
- Each plug comes with a brown Viton O-ring

PART #	DESCRIPTION
TL139	Workbench Port Plugs

O-Ring Pick Set

- Ideal for O-ring removal without causing damage
- Soft bronze tips - three designs
- Perfect for any diver's save-a-dive kit

PART #	DESCRIPTION	RETAIL
TL111	O-Ring Picks - Set of 3	26.50

Regulator Support Handle

- Heavy-duty chromed brass construction
- Stainless steel threaded ends
- One end with standard high pressure port threads 7/16"-20 UNF male threads
- The other end with standard low pressure port threads 3/8"-24 UNF male threads
- Ready for vise mounting with flat sides in middle section

Dimensions
6 x 4.25 in
15.25 x 11 cm

PART #	DESCRIPTION
TL122	Regulator Support Handle

Regulator Cover Removal Tool

- Easy removal of second stage front covers
- Silicone material provides excellent grip
- Fits most manufacturer's second stages

PART #	DESCRIPTION
TL117	Regulator Cover Removal Tool

Hose Plugs

Seal Hoses Closed Before Cleaning

- O-ring sealed plugs for both ends of the hose
- Create a watertight seal
- Machined from Delrin
- Never pressurize hose with plugs in place

LP Regulator Hose Set

HP Gauge Hose Set

Inflator Hose Set

The interior of scuba hoses should never be exposed to any type of cleaning solution. Damage can occur from the break-down of the inner lining resulting in the premature failure of the hose. It is the recommendation of XS Scuba that the ends of all scuba hoses be sealed and plugged during servicing to insure that the inner lining is protected from cleaning solutions.

PART #	DESCRIPTION	RETAIL
TL129	Regulator Hose Plugs	13.50
TL130	High Pressure Gauge Hose Plugs	13.50
TL131	BC Inflator Hose Plugs	13.50

Low Profile - No Barb Mouthpiece Ties

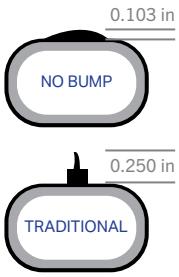
Remove lip irritation with smooth, no-bump tie wraps. The trimmed stub lays flat within the buckle.

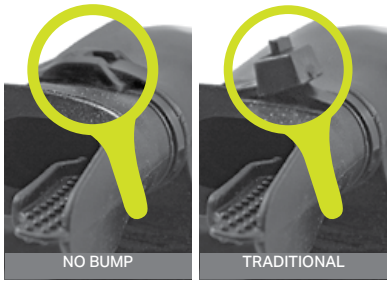
- Sold in packs of 100
- Compatible with "Clinch and Trim" guns

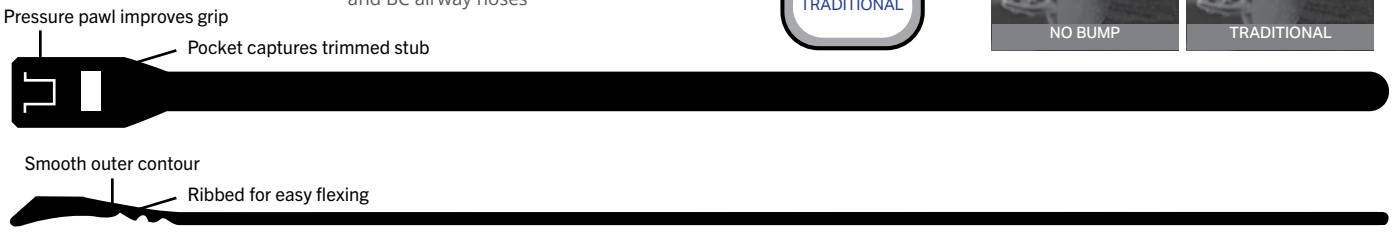
Available in 2 sizes

8 in (203 mm) x 0.18 in (4.6 mm)
- Head width 0.34 in (8.6 mm)
- 55 lbs (25 kg) tensile strength

6.75 in (172 mm) x 0.14 in (3.6 mm)
- Head width 0.23 in (5.8 mm)
- 33 lbs (15 kg) tensile strength
- Best choice for regulator mouthpieces and BC airway hoses







PART #	DESCRIPTION
TL114	No Bump Mouthpiece Ties - 8 in (203 mm) - 100 pieces
TL134	No Bump Mouthpiece Ties - 6.75 in (171 mm) - 100 pieces

Scuba Wrench Set

- Three combination wrench set
- 1/2" by 7/16", 5/8" by 1/2" and 11/16" by 9/16"
- Fit for most common regulator hoses
- Stainless steel construction
- Perfect for any diver's save-a-dive kit

Length
6.0 in (15.25 cm)

PART #	DESCRIPTION	RETAIL
TL125	Scuba Wrench - Set of 3	24.50

Spanner Wrench - Round Surface

- Most commonly used for the removal and installation of the ambient pressure cap on first stages
- Adjustable range is 0.75" to 2.0" circle diameter
- Three pins included: 0.185", 0.152" and 0.122"
- Fits most manufacturer's first stages

Length
6.5 in (16.5 cm)

PART #	DESCRIPTION
TL118	Spanner Wrench - Round Surface

Spanner Wrench - Flat Surface

- Most commonly used for the removal and installation of the high pressure seat retainer on first stages
- Adjustable range is 0.25" to 2.5" flat surface
- Pin height = 0.15" / Pin diameter 0.07"
- Fits most manufacturer's first stages

Length
4.5 in (11.5 cm)

PART #	DESCRIPTION
TL135	Spanner Wrench - Flat Surface

Yoke Retainer Socket Set

- Accurately torque yoke retaining nuts back to factory specifications
- These sockets are specifically manufactured to fit within the confines of the yoke
- Includes a 1" and a 3/4" socket, both with 3/8" drive
- Includes a 3/8" drive 3" extension with a reduced shank diameter of 0.45"
- Allows use with 1/2" and larger yoke screw holes

Note: Because of the necessary reduction in wall thickness of the sockets exceeding of 50 pounds of torque will result in cracking of the sockets

PART #	DESCRIPTION
TL123	Yoke Retainer Socket Set

Inflator Stem

This barbed, replacement inflator stem can be inserted into the oral tube on snorkeling vests, marker buoys and lift bags.
It can be used orally or by connecting a BC LP inflator hose.

PART #	DESCRIPTION	RETAIL
BP37	Inflator Stem	12.00

Paintball Transfiller

- Allows filling of a paintball cylinder from a scuba cylinder
- Attach to K, PRO and DIN scuba valves

Twist Bleed Screw
Stainless steel bleed screw
Positive seal PDVF seat
Easy replacement bleed screw

Paintball Connector (p/n AC391)
Stainless steel construction
5000 psi working pressure
Included with Paintball Filler

Combo Attachment
Attachment to K, PRO and DIN valves
Attachment to 200 bar and 300 bar DIN valves
Spin-on yoke included

Gauge Port
Standard high pressure port 7/16"-20 UNF
Optional mounting of Pony Gauge (p/n GA050)
Optional mounting of Mini Tech Gauge (p/n HL501)

PART #	DESCRIPTION	RETAIL
AC390	Paintball Transfiller	155.00

Paintball Connectors

- Stainless steel construction
- 5000 psi working pressure

AC391

AC392

AC393

AC394

PART #	DESCRIPTION	RETAIL
AC391	Female Paintball to 1/4" Male NPT	49.00
AC392	Female Paintball to 1/4" Female NPT	49.00
AC393	Male Paintball to 1/4" Male NPT	27.00
AC394	Male Paintball to 1/8" Male NPT	27.00
